

MRS reports election results for 2022

mrs.org/about-mrs/governance

Members of the Materials Research Society (MRS) have elected a vice president (who will serve as president in 2023) and four directors to join the 2022 MRS Board of Directors. Furthermore, a proposed change to Article III of the MRS Bylaws to change the MRS Treasurer's term to be three years, consistent with the terms for all other MRS Board Officers, was passed.

The MRS Board of Directors is the highest governing body of MRS, responsible for establishing policy, monitoring progress of the Society toward its long-term goals, and setting the strategic directions for the activities of the Society, including its meetings, publications, interactions with government agencies, and cooperative efforts with other professional societies.

It is composed of the officers of the Society and 12 to 21 directors, 25% of whom may be appointed. The exact number shall be set by resolution of the Board of Directors.

MRS directors are elected for three-year terms. The president-elect serves three years (as president-elect, president, and past president); the secretary is elected for a three-year term; and now the treasurer will also be elected for a three-year term. Members of the Board

may serve on one of the Board's committees (Executive, Finance and Audit, or Governance), Board task forces, or other ad hoc efforts commissioned by the Board.

Terms of office expire at the end of the year indicated in parentheses. The asterisk (*) designates those who are newly elected. The annual election ended August 26, 2021.

2022 MRS OFFICERS

President

Carolyn R. Duran
Intel Corporation

Immediate Past President

Cherie R. Kagan
University of Pennsylvania

Vice President (President-Elect)

***Sabrina Sartori**
University of Oslo

Secretary

Dawnielle Farrar-Gaines
Johns Hopkins University

Treasurer

Shenda Baker
Synedgen Inc.

Executive Director

Todd M. Osman
Materials Research Society

**Newly elected.*

2022 MRS BOARD OF DIRECTORS

Ilke Arslan (2023)
Argonne National Laboratory

***Aditi Risbud Bartl** (2024)
Stanford University

Leonard J. Brillson (2022)
The Ohio State University

Kristen H. Brosnan (2022)
Collins Aerospace

Kyoung-Shin Choi (2023)
University of Wisconsin–Madison

Baratunde Cola (2023)
Georgia Institute of Technology

Coray M. Colina (2022)
University of Florida

***Nerissa Draeger** (2024)
Lam Research Corporation

Catherine Dubourdieu (2022)
Helmholtz-Zentrum Berlin/
Freie Universität Berlin

Claudia Felser (2023)
Max Planck Institute for
Chemical Physics of Solids

***Chinedum Osuji** (2024)
University of Pennsylvania

***Cheolmin Park** (2024)
Yonsei University

Ting Xu (2022)
University of California, Berkeley

**Newly elected.*
