<https://doi.org/10.1617/s11527-016-0894-5>

Due to an unfortunate turn of events the article title was only partly given in the article next to the fact that the list of TC members had accidentally been left out. Please find in this erratum the correct article title and the list of TC members. Both should be considered as part of the final version by the reader.

This publication was written within the framework of RILEM Technical Committee 243-SGM, which had the following RILEM members:

Chairman: Caspar Groot, The Netherlands.

Secretary: Jan Valek, Czech Republic.

The original article can be found online at
