Don't feel rejected – management strategies for organ transplantation

General

FK 506: an immunosuppressant for the 1990s? Macleod AM, Thomson AW. *Lancet* 336: 25-27, Jan 1991

Emerging indications for the use of cyclosporin in organ transplantation and autoimmunity. Keown PA. *Drugs* 40: 315-325, Sep 1990

Treatment of transplant rejection in the presence of cytomegalovirus viremia. O'Hair DP, et al. *Transplantation Proceedings* 22: 1815-1817, Aug 1990

Detection of cytomegalovirus infection under therapy with OKT3 monoclonal antibodies. Muller T, et al. *Transplantation Proceedings* 22: 1807-1808, Aug 1990

The usefulness of hyperimmune globulin for treatment of overt cytomegalovirus infection in allograft recipients. Rancewicz Z, et al. *Transplantation Proceedings* 22: 1818-1819, Aug 1990

Cyclosporine monotherapy - an ideal long-term immunosuppression? Schleibner S, et al. *Transplantation Proceedings* 22: 1695-1696, Aug 1990

Factors influencing long-term graft function in children with the use of cyclosporine A. Hoyer PF, et al. *Transplantation Proceedings* 22: 1711-1712, Aug 1990

Right ventricular assist and prostacyclin infusion for allograft failure in the presence of high pulmonary vascular resistance. Esmore DS, et al. *Journal of Heart Transplantation* 9: 136-141, Mar-Apr 1990

Renal transplants

Prevention of acute renal failure after kidney transplantation by treatment with rh-SOD: interim analysis of a double-blind placebo-controlled trial. Schneeberger H, et al. *Transplantation Proceedings* 22: 2224-2225, Oct 1990

Monotherapy with cyclosporine in kidney transplantation. Andreu J, et al. *Transplantation Proceedings* 22: 2270-2271, Oct 1990

Pilot study on induction treatment with high-dose OKT3: preliminary observations in kidney transplantation. Welter HF, et al. *Transplantation Proceedings* 22: 2272, Oct 1990

Preliminary results of a prospectively randomized trial of ALG vs OKT3 for steroid-resistant rejection after transplantation in the early postoperative period. Hesse UJ, et al. *Transplantation Proceedings* 22: 2273-2274, Oct 1990

Cyclosporine: its time of impact on kidney graft survival. Gilks WR, et al. *Transplantation Proceedings* 22: 2282, Oct 1990

Quadruple drug induction treatment in patients with ATN-kidneys: expensive but effective. Schilling M, et al. *Transplantation Proceedings* 22: 2283, Oct 1990

Treatment of resistant hypertension following renal transplantation with an angiotensin-converting-enzyme inhibitor. Schindler JM, et al. *Clinical Transplantation* 4: 292-296, Oct 1990

Quadruple-drug induction therapy in combined renal pancreatic transplantation - OKT3 versus ATG. Illner W-D, et al. *Transplantation Proceedings* 22: 1586-1587, Aug 1990

Effect of a novel immunosuppressive agent, deoxyspergualin, on rejection in kidney transplant recipient. Takahashi K, et al. *Transplantation Proceedings* 22: 1606, Aug 1990

Clinical application of 15-deoxyspergualin for treatment of acute graft rejection following renal transplantation. Suzuki S, et al. *Transplantation Proceedings* 22: 1615-1617, Aug 1990

Advantages of mizoribine over azathioprine in combination therapy with cyclosporine for renal transplantation. Mita K, et al. *Transplantation Proceedings* 22: 1679-1681, Aug 1990

Deflazacort versus 6-methylprednisolone in renal transplantation: immunosuppressive activity and side effects. Elli A, et al. *Transplantation Proceedings* 22: 1689-1690, Aug 1990

Long-term prognosis of cadaver renal allografts transplanted with cyclosporine as basic immunosuppression. Vanrenterghem Y, et al. *Transplantation Proceedings* 22: 1691-1692, Aug 1990

Requirements for safe prednisone discontinuation in late renal transplantation in recipients immunosuppressed with cyclosporine. Lloveras J, et al. *Transplantation Proceedings* 22: 1693-1694, Aug 1990

Use of OKT3 in kidney, pancreas, and liver transplantation. D'Alessandro AM, et al. *Transplantation Proceedings* 22: 1748-1749, Aug 1990

Uses of orthoclone OKT3 for prophylaxis of rejection and induction in initial nonfunction in kidney transplantation. Kahana L, et al. *Transplantation Proceedings* 22: 1755-1758, Aug 1990

Comparison between prophylactic use of OKT3 and cyclosporine in cadaveric renal transplantation. De Pauw L, et al. *Transplantation Proceedings* 22: 1759-1760, Aug 1990

The treatment of steroid-resistant renal allograft rejection with OKT3 and plasmapheresis. Haberal M, et al. *Transplantation Proceedings* 22: 1761-1763, Aug 1990

Prophylactic use of the new monoclonal antibody BMA 031 in clinical kidney transplantation. Smely S, et al. *Transplantation Proceedings* 22: 1785-1786, Aug 1990

Effective prevention of interstitial rejection crisis in immunological high risk patients following renal transplantation: use of high doses of the new monoclonal antibody BMA 031. Dendorfer U, et al. *Transplantation Proceedings* 22: 1789-1790, Aug 1990

Successful treatment of renal allograft rejection in the presence of cytomegalovirus disease.

A report of 2 cases. Burns KD, et al. *American Journal of Nephrology* 10: 162-166, Mar-Apr 1990

Orthoclone OKT3 as first-line therapy in acute renal allograft rejection. Strate M, et al. *Transplantation Proceedings* 22: 219-220, Feb 1990

Comparative study of OKT3 and antilymphocyte serum in the prophylactic treatment of renal transplant rejection in children. Niaudet P, et al. *Annales de Pédiatrie* 37: 83-85, Feb 1990

A novel rescue drug, 15-deoxyspergualin. First clinical trials for recurrent graft rejection in renal recipients. Amemiya H, et al. *Transplantation* 49: 337-343, Feb 1990

Conversion from conventional immunosuppression to cyclosporin-A in complications after kidney transplantation. Scholz D, et al. *Zeitschrift für Urologie und Nephrologie* 83: 69-76, Feb 1990

Orthoclone OKT3 as rescue treatment for steroid-resistant and recurrent acute rejection in clinical renal transplantation. Tvedegaard E, Olgaard K. *Transplantation Proceedings* 22: 217-218, Feb 1990

First and second course of OKT3 monoclonal anti-T cell antibody for treatment of renal allograft rejection followed by testing for anti-OKT3 IgM and/or IgG immunization. Birkeland SA, et al. *Transplantation Proceedings* 22: 221-222, Feb 1990

Steroid-resistant rejection: the effect of ATG on renal allograft survival. Jakobsen A, et al. *Transplantation Proceedings* 22: 225, Feb 1990

Use of a human monoclonal anti-cytomegalovirus antibody for the treatment of severe cytomegalovirus after renal transplantation. Skarp-Orberg I, et al. *Transplantation Proceedings* 22: 234, Feb 1990

Other organ transplants

Clinical experience with GM-CSF and IL-3 in patients with bone marrow failure. Schulz G, et al. *Medical and Pediatric Oncology* 18: 517-518, Nov-Dec 1990

Systemic cyclosporin A prophylaxis in high-risk corneal transplants. Rossa V, et al. *Klinische Monatsblätter für Augenheilkunde* 197: 466-469, Dec 1990

Methotrexate as an adjunct in the treatment of persistent mild cardiac allograft rejection. Olsen SL, et al. *Transplantation* 50: 773-775, Nov 1990

Induction immunosuppression with OKT3 monoclonal antibody in cardiac transplant recipients. Pulpon LA, et al. *Transplantation Proceedings* 22: 2319, Oct 1990

Resistant hepatic allograft rejection successfully treated with cyclophosphamide and plasmapheresis. Evrard HM, et al. *Transplantation* 50: 702-720, Oct 1990

Interferon treatment in HBV cirrhosis and liver transplantation. Gonzalez EM, et al. *American Journal of Gastroenterology* 85: 1255, Sep 1990

Safety of cyclosporine monotherapy after heart

- transplantation. Livi U. et al.
Transplantation Proceedings 22: 1441-1442,
Aug 1990
- OKT3 therapy for hepatic allograft rejection:
comparison of results in adults and children.
Woodle ES. et al. Transplantation
Proceedings 22: 1765-1766. Aug 1990
- Use of OKT3 for late acute rejection in liver
transplantation. Samuel D. et al.
Transplantation Proceedings 22: 1767-1768,
Aug 1990
- Prolonged and repeated courses of OKT3 after
liver transplantation. Colledan M. et al.
Transplantation Proceedings 22: 1769-1771,
Aug 1990
- Low serum OKT3 levels correlate with failure
to prevent rejection in orthotopic liver
transplant patients. McDiarmid SV, et al.
Transplantation Proceedings 22: 1774-1776,
Aug 1990
- Clinical effect of recombinant human
granulocyte colony-stimulating factor in
bone marrow transplantation. Asano S, et al.
Gan to Kagaku Ryoho 17: 1201-1209, Jun
1990
- High-risk keratoplasties. HLA antigens, and
cyclosporin A. Martin XD, Ganzfried R.
Klinische Monatsblätter für Augenheilkunde
196: 301-303, May 1990
- Treatment of cardiac allograft rejection with
intravenous corticosteroids. Miller LW.
Journal of Heart Transplantation 9: 283-287,
May-Jun 1990
- Low-dose oral prednisone in the treatment of
acute cardiac allograft rejection not
associated with hemodynamic compromise.
Hosenpud JD, et al. Journal of Heart
Transplantation 9: 292-296. May-Jun 1990
- Tissue plasminogen activator and penetrating
keratoplasty. Heidemann DG, et al.
Ophthalmic Surgery 21: 364-365, May 1990
- Impact of prophylactic OKT3 on mild acute
rejection of the cardiac allograft. Yeoh TK,
et al. Journal of the American College of
Cardiology 15 (Suppl. A): 70, Feb 1990
