

**ERRATUM****Article Corrected**

Lercanidipine/enalapril fixed-dose combination: a guide to its use in essential hypertension. *Drugs Ther Perspect* 2010; 26 (7): 1-5

**Correction Made**

**Page 4:** Column 2, second full paragraph, sentence two, which previously read:

“The mean change from placebo (least square means) in trough office sSBP was  $-19.9$  mmHg with combination treatment versus  $-5.0$  mmHg with lercanidipine 10 mg and  $-5.9$  mmHg with enalapril 20 mg (both  $p < 0.001$ ).”

has now been corrected as follows:

“The mean change from placebo (least square means) in trough office sSBP was  $-16.9$  mmHg with combination treatment versus  $-5.0$  mmHg with lercanidipine 10 mg and  $-5.9$  mmHg with enalapril 20 mg (both  $p < 0.001$ ).”
