

Article Corrected

Wilby KJ, Ensom MHH. Pharmacokinetics of antimalarials in pregnancy: a systematic review. Clin Pharmacokinet 2011; 50 (11): 705-23

Corrections Made

Page 707, table I: First-line treatment of *P. vivax*, *P. ovale* or *P. malariae* in first trimester in column 2, which previously read:

“Chloroquine base 25 mg/kg divided over 3 d, combined with primaquine, if available”

has now been corrected as follows:

“Chloroquine base 25 mg/kg divided over 3 d”

Page 707, table I: First-line treatment of *P. vivax*, *P. ovale* or *P. malariae* in second and third trimesters in column 3, which previously read:

“Chloroquine base 25 mg/kg divided over 3 d, combined with primaquine, if available”

has now been corrected as follows:

“Chloroquine base 25 mg/kg divided over 3 d”
