ERRATA

Erratum: “The High-Pressure Phase of Boron, γ -B₂₈: Disputes and Conclusions of 5 Years after Discovery” **[*Journal of Superhard Materials*, vol. 33, no. 6, 2011]**

A. R. Oganov, V. L. Solozhenko, C. Gatti, O. O. Kurakevych, and Y. Le Godec

DOI: 10.3103/S1063457612010108

In the published version of the “The High-pressure Phase of Boron, γ -B₂₈: Disputes and Conclusions of 5 Years after Discovery” paper by A. R. Oganov, V. L. Solozhenko, C. Gatti, O. O. Kurakevych, and Y. Le Godec, in “Journal of Superhard Materials”, 2011, vol. 33, no. 6, pp. 363–379, the error in the heading of Table 3 at page 373 was made through the fault of the Journal’s typesetter. The correct appearance of this table is below:

Table 3. Bader charges (Q) and volumes (V) in γ -B₂₈ computed using the GGA functional, exact exchange and hydride HSE06 functionals (this work), and two experimental determinations [31]

	GGA		Exact exchange		HSE06		Experiments	
	Q	$V, \text{\AA}^3$	Q	$V, \text{\AA}^3$	Q	$V, \text{\AA}^3$	Q (experiment 1)	Q (experiment 2)
