An article of this title was published in *Int. J. SHS*, 2009, vol. 18, no. 1, pp. 15–24. Unfortunately, some errors occurred in the stoichiometry reported in Eq. (4) and in the *Results and Discussion* section of the published article.

Equation (4) is displayed below:

The correct stoichiometry is as follows:

In addition, the value of the enthalpy of formation equal to 2315.634 kJ appearing for the system HHS in Table 2 was incorrect. The correct value is 1727.573 kJ.
