Received March 15, 2024; revised March 15, 2024; accepted March 15, 2024

DOI: 10.3103/S1068364X24010034

In this article the statement in the Funding information section was incorrectly given as 'Financial support was provided within the framework of the Russian state project for the development and introduction of technology in coal prospecting and extraction, industrial safety, bioremediation, and the creation of new coal products, with systematic decrease in environmental impact and threats to human health (order N1144-r, May 11, 2022; contract 075-15-2022-1201, September 30, 2022)' and should have read 'The study was conducted within the framework of the comprehensive scientific and technical program of a full innovation cycle "Development and introduction of prospecting and mining technologies, industrial safety measures, bioremediation, and the development of

new coal-based products with a decrease in environmental impact and human health risks", approved by the Decree of the Government of the Russian Federation No. 1144-r dated May 11, 2022, Agreement No. 075-15-2022-1201 dated September 30, 2022, with financial support from the Ministry of Science and Higher Education of the Russian Federation'.
