ERRATUM

Ghorashi, S., Spalek, T. M., Enns, J. T., & Di Lollo, V. (2009). Are spatial selection and identity extraction separable when attention is controlled endogenously? *Attention, Perception, & Psychophysics*, **71**(6), 1233-1240.

On page 1236 of the print article, Figure 2 erroneously is a duplicate of Figure 3, which also appears in its correct position on the next page. We deeply regret this error, which has been corrected in the online version of the article. Below is the correct Figure 2 for the print article:

Figure 2. Results of Experiment 1. Bars represent one standard error of the mean. T2, second target. The number cue was colored red.
