Erratum

Hinton, S. C., & Rao, S. M. (2004). “One-thousand *one* . . . one-thousand *two* . . .”: Chronometric counting violates the scalar property in interval timing. *Psychonomic Bulletin & Review*, 11 (1), 24-30. In the third paragraph of the Results section for Experiment 1 on p. 27, there is an error in the equation on lines 5 and 6. The text should read as follows:

The FWHM data for counting were well characterized both by the SRM ($\text{FWHM} = 0.67 * \sqrt{T}$, $r^2 = .55$) and by a linear model with a constant intercept ($\text{FWHM} = 0.099 * T + 1.03$, $r^2 = .57$).
