revision accepted December 15, 1980.)

ERRATUM

Roitblat, H. L. Coding and coding processes in pigeon short-term memory. *Animal Learning & Behavior*, 1980, 8, 341-351—The chi-square values reported in Table 1 were computed incorrectly. The actual values are all highly significant. Therefore, the first sentence of the last full paragraph on page 346, column 1, should read: "For all five of the birds serving in Experiment 2, the distribution of first-choice errors was significantly different from that expected on the basis of the inattention model."
