SESSION I

INVITED ADDRESSES

Joseph B. Sidowski, *University of South Florida*, Presider

Welcome and Conference business

DONALD I. TEPAS

St. Louis University, St. Louis, Missouri 63103

In a report to the attendees, it was announced that a Third National Conference on the Use of On-Line Computers in Psychology will meet in St. Louis just prior to the annual meeting of the Psychonomic Society. The 1-day meeting will be held at St. Louis University on October 31, 1973. The Steering Committee announced plans to establish the Conference on a permanent basis, with membership open to all interested professionals. Conference members will be invited to play an active role in determining future conference activities, Steering Committee membership, and conference officers.

Charter members of the Conference Steering Committee are: Daniel E. Bailey (University of Colorado); Edward C. Carterette (University of California at Los Angeles); Frank M. Goode (University of Michigan); Bert F. Green, Jr. (Johns Hopkins University); Richard B. Millward (Brown University); Peter G. Polson (University of Colorado); Joseph B.

Sidowski (University of South Florida); William Siegel (University of Western Ontario); Donald I. Tepas (St. Louis University); and William R. Uttal (University of Michigan). Donald I. Tepas is the first elected President of the Conference.

Suggestions for future conference activities as well as requests for membership information should be addressed to the Conference President (Donald I. Tepas, Department of Psychology, St. Louis University, St. Louis, Missouri 63103). Suggestions for paper sessions, symposia, workshops, etc., for the next conference should be directed to the 1973 Program Chairman, Peter G. Polson (CLIPR, 1511 University Avenue, Room 4, University of Colorado, Boulder, Colorado 80302).

The Steering Committee encourages all interested professionals to join in the activities of the National Conference on the Use of On-Line Computers in Psychology so that a future open forum for these activities is insured.
