ERRATUM

Furedy, J. J., Poulos, C. X., and Schiffman, K. Logical problems with Prokasy's assessment of contingency relations in classical skin conductance conditioning. *Behavior Research Methods & Instrumentation*, 1975, 7 (6), 521-523. Page 522, Column 1, Paragraph 3, the last sentence should read: "As indicated, the intent was to assess the random procedure as a control for common *autonomic* conditioning studies." Page 523, Note 1, the first quotation should read: "'CS-' will refer to a *signal* for which there is no overlap of signal and UCS." In the next to the last line of Note 1, RCS should be UCS. We apologize for these errors.
