Editorial

This issue of *Behavior Research Methods, Instruments, & Computers* is devoted to the 28th Annual Meeting of the Society for Computers in Psychology (SCiP) held in Dallas on November 19, 1998. The 1-day conference included 46 presentations in 12 sessions, a presidential address, an invited address by Thomas K. Landauer, and vendor presentations. The focus was on use of the World-Wide Web for research, teaching, and practice, and on use of cutting-edge technological approaches to address methodological and theoretical issues. The articles included in these proceedings are a subset that were submitted and accepted after being reviewed by at least two persons knowledgeable in the content area. A complete listing of titles, authors, and abstracts for papers presented at the conference is available at the SCiP Web page: <http://www.lafayette.edu/allanr/scip.html>.

The president of the Society for 1998–1999 is John Krantz, Hanover College; the outgoing president is Doug Eamon, University of Wisconsin, Whitewater; and the president-elect is Walter Beagley, Alma College. The members of the steering committee are: Margaret Anderson, SUNY College at Cortland; Curt Burgess, University of California, Riverside; Chris Cozby, California State University, Fullerton, secretary-treasurer; Gerardo Gonzalez, California State University, San Marcos; Richard Lehman, Franklin & Marshall College; Cyndi McDaniel, Northern Kentucky University; Sarah Ransdell, Florida Atlantic University; Barry Tanner, Wayne State University; John Vokey, University of Lethbridge; and George Wolford, Dartmouth College. John Vokey and Scott Allen are the program chairs for the 1999 meeting.

The program chair for the 1998 meeting was Curt Burgess. Members of the SCiP steering committee, as well as Ken McRae and Robert Peterson, assisted in reviewing proposals for the meeting. The Governing Board of the Psychonomic Society, Walter Beagley, and Chris Cozby were helpful in planning the meeting. Ricard Downing received the Castellan Student Paper Award for his paper, "The Missouri Developmental Disability Resource Center: A Web Site Responding to a Critical Need for Information of Parents With a Child With a Disability."

The 29th Annual Meeting of the Society for Computers in Psychology will be held in Los Angeles on November 18, 1999. Of interest are papers, symposia, and tutorials dealing with use of computers in all areas of psychology, including research, education, clinical practice, and industry. Presentations geared for all levels are appropriate, including introductory tutorials, new ways of teaching or collecting data, and technical information for researchers who write their own code. Individuals interested in suggesting topics for sessions or submitting papers for the 1999 meeting are urged to contact the program chairs: John Vokey and Scott Allen, Department of Psychology and Neuroscience, University of Lethbridge, Lethbridge, AB T1K 3M4, Canada; phone (403) 329-2235; fax (403) 329-2555; e-mail: vokey@hg.uleth.ca and allens@uleth.ca.

Anyone interested in joining the Society for Computers in Psychology or in participating in its meetings may obtain information by contacting the secretary-treasurer Chris Cozby, at the Department of Psychology, P.O. Box 6846, California State University, Fullerton, CA 92834-6846; e-mail: cozby@fullerton.edu. Membership in the Society and participation at the meeting are not limited to psychologists. Students are invited to become members and participate in the Society and its meetings. To have your name added to the SCiP discussion list, send a message to listserv@psych.fullerton.edu; the message should read SUBSCRIBE SCiP-L Your name.

Copies of the Proceedings since 1985 can be obtained from the Publications Office, Psychonomic Society, Inc., 1710 Fortview Road, Austin, TX 78704. Copies of the Proceedings from 1972 through 1985 can be obtained from Bell & Howell Information and Learning and KTO Microfilm.
