Erratum

Brown, M. F., & Moore, J. A. In the dark II: Spatial choice when access to extrinsic spatial cues is eliminated. *Animal Learning & Behavior*, **25**(3), 335-346. Figure 4, on page 342, contains an error. The arms on all of the radial mazes should have been numbered in a clockwise manner. The image labeled "Phase 2, Free Choice: Rotation" erroneously had its arms numbered in a counterclockwise fashion. A corrected version of the figure is available at <http://www.vill.edu/~mbrown/b&mcorr.htm>
