Computer technology: Index to articles in *Behavior Research Methods, Instruments,* *& Computers* from 1988 through 1989

GWENDOLYN CAMPBELL and JOSEPH B. SIDOWSKI
University of South Florida, Tampa, Florida

This is a supplement to "Computer technology: Index to articles in *Behavior Research Methods, Instruments, & Computers* from 1977 to 1987," published in the December 1987 issue. Articles are listed under the various categories in the form of complete reference citations, except for the journal name. If an article is relevant to more than one topic, a complete citation is provided for each.

The Topic Guide lists the categories and subcategories as they appear serially in the Computer Technology Index. If two or more categories contain related material, the Topic Guide refers the reader to the related topics. There have been several minor modifications and additions to the Topic Guide since the original index was published.

Note—All correspondence and requests for reprints should be sent to Gwendolyn Campbell, Department of Psychology, University of South Florida, Tampa, FL 33620.

Topic Guide

Artificial Intelligence and Applications	658
Expert Systems	658
Neural Nets	658
(See also Simulations and Models, Connectionist Models)	
Clinical Applications	658
Assessment	658

Computer Technology Index

ARTIFICIAL INTELLIGENCE AND APPLICATIONS

- MCCLELLAND, J. L., & RUMELHART, D. E. (1988). A simulation-based tutorial system for exploring parallel distributed processing. **20**, 263-275.
- MUNRO, P. W., & ANDERSON, J. A. (1988). Tools for the connectionist modeling: The dynamical systems methodology. **20**, 276-281.
- SCHNEIDER, W. (1988). Sensitivity analysis in connectionist modeling. **20**, 282-288.

Expert Systems

- JONES, J. A., MILLER, B. O., & SCARBOROUGH, D. L. (1988). A rule-based expert system for music perception. **20**, 255-263.
- LACHMAN, R. (1989). Expert systems: A cognitive science perspective. **21**, 195-204.

Neural Nets

- BREMNER, F. J., YOST, M., & NASMAN, V. T. (1989). Statistical analysis of fuzzy-set data from neuronal networks. **21**, 209-212.
- LEVINE, D. S. (1989). Neural network principles for theoretical psychology. **21**, 213-224.
- MAKI, W. S., & ABUNAWASS, A. M. (1989). A neural network simulator for supercomputers. **21**, 225-239.

CLINICAL APPLICATIONS

- EILER, J. M., NELSON, W. W., JENSEN, C. C., & JOHNSON, S. P. (1989). Automated data collection using bar code. **21**, 53-58.
- MITTERER, J., & ADAMS-WEBBER, J. (1988). OMNIGRID: A general repertory grid design, administration, and analysis program. **20**, 359-360.
- SWANSON, J. M., NUECHTERLEIN, K., ASARNOW, R., TAYLOR, E., HUNT, R., SHAYWITZ, B., SHAYWITZ, S., POTKIN, S., EARLY, T., CLONINGER, C. R., & POSNER, M. (1989). Use of a common software system for collaborative clinical research on attentional processes in schizophrenia and ADHD. **21**, 250-254.
- ZIMMERMAN, D. P. (1989). Electronic language: A study of word processing by emotionally disturbed children and adolescents in residential treatments. **21**, 181-186.

Assessment

- OSTRANDER, L. E., KANDEL, G. L., JENKINS, P. L., & SIMON, J. W. (1989). A preferential looking clinical acuity test: Improvements in implemented microcomputer control. **21**, 421-425.
- STOUT, C. E. (1988). Personal computer software for teaching differential psychodiagnostics. **20**, 106-107.
- STOUT, C. E., & SCHERAMIC, M. (1989). Innovative uses of existing software in the teaching of psychodiagnostics. **21**, 187-188.

COMPUTER CONFERENCING

- ANDERSON, M., & HORNBY, P. (1989). COMPsych: A description and progress report. **21**, 205-208.

- ANDERSON, M., HORNBY, P., & BOZAK, D. (1988). COMPsych: A computerized software information system. **20**, 243-245.

COMPUTER RANDOMIZATION TECHNIQUES

- LORDAHL, D. S. (1988). Repairing the Microsoft BASIC RND function. **20**, 221-223.

COMPUTER TIMING

- BRYLSBAERT, M., BOVENS, N., D'YDEWALLE, G., & VAN CALSTER, J. (1989). Turbo Pascal timing routines for the IBM microcomputer family. **21**, 73-83.
- CROSBIE, J. (1989). A simple Turbo Pascal 4.0 program for millisecond timing on the IBM PC/XT/AT. **21**, 408-413.
- DLHOPOLSKY, J. G. (1988). C language functions for millisecond timing on the IBM PC. **20**, 560-565.
- EMERSON, P. L. (1988). The best crude timer for MS-DOS implementations of C. **20**, 583-584.
- EMERSON, P. L. (1988). TIMEX: A simple IBM AT C language timer with extended resolution. **20**, 566-572.
- EMERSON, P. L. (1988). Using serial interfaces and the C language for real-time experiments. **20**, 330-336.
- GRANAAS, M. M. (1989). TIMEX2: A modified C-language timer for PC-AT class machines. **21**, 619-622.
- GRAVES, R., & BRADLEY, R. (1988). More on millisecond timing and tachistoscope applications for the IBM PC. **20**, 408-412.
- HEATHCOTE, A. (1988). Screen control and timing routines for the IBM microcomputer family using a high-level language. **20**, 289-297.
- KIELEY, J. M., & HIGGINS, T. S. (1989). Precision timing options for the Apple Macintosh family of computers. **21**, 259-264.
- MERBITZ, C., GRIP, J., & MARQUI, H. P. (1988). A jiffy clock for the Apple IIc, II+, and IIe with a mouse. **20**, 362.
- WESTALL, R. F., PERKEY, M. N., & CHUTE, D. L. (1989). Millisecond timing on the Apple Macintosh: Updating Drexel's MilliTimer. **21**, 540-547.

COMPUTER UTILITIES

Data Transfer

- PIEPER, W., & LACHNIT, H. (1989). C64-to-PC: Transmitting data from a Commodore C64 to IBM-compatible PC's. **21**, 653.

COMPUTERS

General Use in Psychology

- ANDERSON, M., HORNBY, P., & BOZAK, D. (1988). COMPsych: A computerized software information system. **20**, 243-245.
- ANDERSON, M., & HORNBY, P. (1989). COMPsych: A description and progress report. **21**, 205-208.
- LEHMAN, R. S. (1988). The languages we use. **20**, 236-242.
- NULL, C. H. (1988). Science, politics, and computers. **20**, 73-80.

Psychological Theory

- LEVINE, D. S. (1989). Neural network principles for theoretical psychology. **21**, 213-224.

Selection and Maintenance

- SCHNEIDER, W. (1989). Computer viruses: What they are, how they work, how they might get you, and how to control them in academic institutions. **21**, 334-340.

COMPUTERS IN EDUCATION

- BUTLER, D. L. (1988). A critical evaluation of software for experiment development in research and teaching. **20**, 218-220.
- CASTELLAN, N. J. (1988). Comments on the applications of microcomputers in teaching. **20**, 193-196.
- GALLO, P., JULIAN, D., & WIDEMAN, G. (1989). Introduction to computer use: Curriculum development. **21**, 151-154.
- HEWETT, T. T. (1989). The Drexel Disk: Hypertext-based instructional software as a tool for the exploration of a constrained knowledge system. **21**, 316-325.
- LEE-SAMMONS, W. H., & WOLLEN, K. A. (1989). Computerized practice tests and effects on in-class exams. **21**, 189-194.
- STOUT, C. E., & SCHERAMIC, M. (1989). Innovative uses of existing software in the teaching of psychodiagnostics. **21**, 187-188.

CAI

- STOUT, C. E. (1988). Personal computer software for teaching differential psychodiagnostics. **20**, 106-107.
- WISE, B., OLSON, R., ANSTETT, M., ANDREWS, L., TERJAK, M., SCHNEIDER, V., KOSTUCH, J., & KRIHO, L. (1989). Implementing a long-term computerized remedial reading program with synthetic speech feedback: Hardware, software, and real-world issues. **21**, 173-180.

Mathematics

- BRADLEY, D. R. (1989). Computer simulation with DATASIM. **21**, 99-112.
- GALLA, J. P. (1989). BASIC statistics for IBM computers: An integrated instructional statistical package. **21**, 481.
- ROGERS, R. L. (1989). Using the microcomputer as a visual aid in the statistics classroom. **21**, 96-98.
- VERCRUYSSSEN, M., & EDWARDS, J. C. (1988). ANOVA/TT: Analysis of variance teaching template for Lotus 1-2-3. **20**, 349-354.

Courseware

- EAMON, D. B. (1988). Problems with evaluation of courseware for instruction in psychology. **20**, 178-179.

Student Laboratory

- BATSON, J. D., & EINSTEIN, G. O. (1989). Developing a microcomputer laboratory at a small liberal arts college. **21**, 139-141.
- BUTLER, D. L. (1988). Selection of software in the instructional laboratory. **20**, 175-177.
- CONN, G., STAFINIAK, P., DIPASQUALE, M. C., & HARPER, L. (1988). Effects of teaching an introductory psychology laboratory using a computerized research tool. **20**, 184-187.
- CUSHING, S. (1989). Minds and machines: Computers and cognition in a liberal arts context. **21**, 155-159.
- GOOLKASIAN, P. (1989). Computerized laboratories for psychology instruction: How successful are they? **21**, 148-150.
- HATTEN, J. L., & HATTEN, A. D. (1989). Implementing an

undergraduate research apprenticeship with the Macintosh computer. **21**, 142-147.

- HEWETT, T. T. (1988). Some observations on applications of microcomputers in teaching. **20**, 191-192.
- HORNBY, P., & ANDERSON, M. (1988). Using computers in introductory psychology. **20**, 180-183.
- LEITH, C. R., HAMM, H. D., DUNCANSON, C., & SENICAL, T. (1988). A computer-driven undergraduate laboratory curriculum and related support logistics. **20**, 188-190.
- MCALLISTER, H. A. (1989). Funding an undergraduate microcomputer laboratory: A case study. **21**, 134-138.
- PETERSON, S. B. (1989). A microcomputer lab for psychology based on a hierarchical learning model. **21**, 130-133.
- RANDELL, S., & LEVY, C. M. (1989). A flexible and interactive software package for a laboratory in cognition and perception. **21**, 160-162.
- SARGENT, D. M. (1989). Use of on-line computers in experimental psychology: Hardware considerations. **21**, 163-165.
- SCHNEIDER, W. (1989). Enhancing a standard experimental delivery system (MEL) for advanced psychological experimentation. **21**, 240-244.
- ST. JAMES, J. D. (1989). The MEL Library in the undergraduate research methods course. **21**, 245-247.
- VIEIRA, A. A. (1989). Using MEL in a networked classroom. **21**, 248-249.

EEG/EMG/ECG

- BARO, J. A., & LEHMKUHLE, S. (1988). A software system for recording and analyzing transient evoked potential data with an Apple IIe computer. **20**, 515-516.
- KAPLAN, H. L., & NOLDY, N. E. (1989). A general framework for defining evoked potential paradigms. **21**, 285-293.
- YOST, M., BREMNER, F. J., & NASMAN, V. T. (1988). Using three-dimensional graphics in neuropsychological hypothesis testing. **20**, 108-112.

EXPERIMENT DESIGN

- ADEDI, J., & SHAVELSON, R. (1988). FRACTION: A computer program for fractional factorial design. **20**, 58-59.
- CARVER, C. S., DUNHAM, R. G., SPITZER, M. W., & DELGADO, L. M. (1988). A tracking program to schedule subjects across multipanel longitudinal research. **20**, 576-578.
- GREENE, S., RATCLIFF, R., & MCKOON, G. (1988). A flexible programming language for generating stimulus lists for cognitive psychology experiments. **20**, 119-128.
- STRUBE, M. J. (1988). A BASIC program for the generation of Latin squares. **20**, 508-509.

GRAPHICS

- ALDRIDGE, J. W., & FLORES, S. A. (1988). Random figures and mirror images with variable complexity, size, and orientation in Applesoft BASIC. **20**, 313-316.
- BROOKS, J. O., III, & BIEBER, L. L. (1988). Digitized nonobjects for use with the Apple Macintosh computer. **20**, 433-434.
- PALMER, C. (1989). Computer graphics in music performance research. **21**, 265-270.
- YOST, M., BREMNER, F. J., & NASMAN, V. T. (1988). Using three-dimensional graphics in neuropsychological hypothesis testing. **20**, 108-112.
- YOST, M., GINDLER, L., & BREMNER, F. J. (1988). Multivariate statistics and three-dimensional graphics. **20**, 113-117.

Animation of Graphics

- BENTE, G. (1989). Facilities for the graphical computer simulation of head and body movements. **21**, 455-462.

Software

- TANNER, P. P., JOLICOEUR, P., COWAN, W. B., BOOTH, K., & FISHMAN, F. (1989). Antialiasing: A technique for smoothing jagged lines on a computer graphics image—an implementation on the Amiga. **21**, 59-66.

HARDWARE**Evaluation and Comparison**

- POPPER, R., DRAGSBAEK, H., SIEGEL, S. F., & HIRSCH, E. (1988). Use of pocket computers for self-administration of cognitive tests in the field. **20**, 481-484.

CRT Modifications

- MALONEY, L. T., & KOH, K. (1988). A method for calibrating the spatial coordinates of a visual display to high accuracy. **20**, 372-389.

Printers/Plotters

- GARCÍA-PÉREZ, M. A. (1989). 123 halftone patterns for printing gray-level images on a laser printer. **21**, 24-30.

HUMAN FACTORS**Human-Computer Interaction**

- GETTYS, C. F., & BERGLAN, L. (1989). Laboratory MicroStar: A data-logging word processor for research on word processors. **21**, 484-486.
- HEWETT, T. T. (1988). The electronic spreadsheet as a professional productivity tool. **20**, 231-235.

HYPERMEDIA

- GRAY, S. H., & SHASHA, D. (1989). To link or not to link? Empirical guidance for the design of nonlinear text systems. **21**, 326-333.
- HEWETT, T. T. (1989). The Drexel Disk: Hypertext-based instructional software as a tool for the exploration of a constrained knowledge system. **21**, 316-325.

HyperCard

- GEISLER-BRENSTEIN, E., & BRENSTEIN, R. J. (1989). The potential of HyperCard for psychological research and instruction: A general discussion and description of two research applications. **21**, 307-311.
- MARTIN, T. A., & WILCOX, K. L. (1989). HyperCard administration of a block-design task. **21**, 312-315.
- NASON, S., & ZABRUCKY, K. (1988). A program for comprehension monitoring of text using HyperCard for the Macintosh. **20**, 499-502.

IMAGE PROCESSING

- GARCÍA-PÉREZ, M. A. (1988). HDC: A subroutine library for image processing using Burt's hierarchical discrete correlation. **20**, 317-329.

INTERFACE

- D'ANDREA, J. A., & KNEPTON, J. (1988). Construction and implementation of a low-cost electronic experiment control interface. **20**, 97-99.
- EMERSON, P. L. (1988). Using serial interfaces and the C language for real-time experiments. **20**, 330-336.
- FRANKS, I. M. (1988). A method for investigating the sequential ordering of simple movement patterns: An IBM-based application using the Tecmar Labmaster. **20**, 298-306.
- LAVOND, D. G., & STEINMETZ, J. E. (1989). An inexpensive interface for the IBM PC/XT and compatibles. **21**, 435-440.

LABORATORY CONTROL PROGRAM

- CONLEY, J. (1989). An experiment control system for the Amiga microcomputer. **21**, 391-393.
- D'ANDREA, J. A., & KNEPTON, J. (1988). Construction and implementation of a low-cost electronic experiment control interface. **20**, 97-99.
- EDGE, S. E., & HERTEL, S. A. (1989). Running laboratory experiments using the RSX operating system and FORTRAN on the PDP-11. **21**, 303-306.
- PALYA, W. L. (1988). An introduction to the Walter/Palya controller and ECBASIC. **20**, 81-87.
- PEVEY, M. E. (1988). Using an IBM PC to network Walter/Palya experiment controllers. **20**, 100-103.
- SCHNEIDER, W. (1989). Enhancing a standard experimental delivery system (MEL) for advanced psychological experimentation. **21**, 240-244.
- SCHNEIDER, W. (1988). Micro Experimental Laboratory: An integrated system for IBM PC compatibles. **20**, 206-217.
- TATHAM, T. A., & ZURN, K. R. (1989). The MED-PC experimental apparatus programming system. **21**, 294-302.
- WALTER, D. E. (1988). The Walter/Palya experiment controller users' group meeting and help session. **20**, 104-105.
- WEISMAN, R., & PALYA, W. (1988). Development and operating environments for a network of Walter/Palya experiment controllers on the Macintosh computer. **20**, 93-96.

LANGUAGE**APL**

- ANSON, J. (1988). ROBREG: An APL procedure for fitting robust regression lines using Huber's M-estimate. **20**, 579-582.
- BERRY, K. J. (1989). An APL function for the asymptotic test of significance for Goodman and Kruskal's gamma statistic. **21**, 473-476.
- BERRY, K. J., & MIELKE, P. W., JR. (1988). APL approximations for common statistical critical values. **20**, 339-342.
- BRENNAN, J. M., NITZ, L. H., & DALY, J. E. (1988). An APL program for measures of association for ordinal variables. **20**, 429-431.
- SAKURAI, M. M., & BRENNAN, J. M. (1989). Computing the Harsanyi function $H(S)$ for n -person cooperative transferable utility normal form games. **21**, 535-539.
- SAKURAI, M. M., & BRENNAN, J. M. (1988). Computing the von Neumann-Morgenstern characteristic function $v(S)$ for cooperative n -person transferable utility normal form games. **20**, 367-371.

Assembler/Machine Language

- BARO, J. A., & LEHMKUHLE, S. (1988). A software system for recording and analyzing transient evoked potential data with an Apple IIe computer. **20**, 515-51.
- BIGGS, T. C., PULHAM, D., & BLEASDALE, F. A. (1988). Apple slide tachistoscope. **20**, 49-53.
- EAMON, D. B. (1988). Enhancing Applesoft using ampersand routines. **20**, 224-230.
- SEGALOWITZ, S. J. (1988). IBM PC tachistoscope: II. Assembly language subroutines. **20**, 432.
- WRIGHT, R. D., & DAWSON, M. R. W. (1988). Using hardware interrupts for timing visual displays and reaction-time key interfacing on the Commodore 64. **20**, 41-48.
- LAVOND, D. G., & STEINMETZ, J. E. (1989). An inexpensive interface for the IBM PC/XT and compatibles. **21**, 435-440.
- BASIC**
- ADEDI, J., & SHAVELSON, R. (1988). FRACTION: A computer program for fractional factorial design. **20**, 58-59.
- ALDRIDGE, J. W., & FLORES, S. A. (1988). Random figures and mirror images with variable complexity, size, and orientation in Applesoft BASIC. **20**, 313-316.
- BARO, J. A., & LEHMKUHLE, S. (1988). A software system for recording and analyzing transient evoked potential data with an Apple IIe computer. **20**, 515-51.
- BEINS, B. C. (1989). An Applesoft BASIC program for the G-statistic: An alternative to the chi-square test. **21**, 627-629.
- BENTE, G. (1989). Facilities for the graphical computer simulation of head and body movements. **21**, 455-462.
- BIGGS, T. C., PULHAM, D., & BLEASDALE, F. A. (1988). Apple slide tachistoscope. **20**, 49-53.
- BROPHY, A. (1988). A BASIC program for the multistage Bonferroni procedure for many correlations. **20**, 416-418.
- BROPHY, A. L., & WOOD, D. L. (1989). Algorithms for fast and precise computation of the normal integral. **21**, 447-454.
- CARVER, C. S., DUNHAM, R. G., SPITZER, M. W., & DELGADO, L. M. (1988). A tracking program to schedule subjects across multipanel longitudinal research. **20**, 576-578.
- COOPER, L. D., GARICA, R., & GIBBON, J. (1988). The laptop Macintosh: An interface and communications software for experiment control of animal learning research. **20**, 88-92.
- D'ANDREA, J. A., & KNEPTON, J. (1988). Construction and implementation of a low-cost electronic experiment control interface. **20**, 97-99.
- DAWSON, D. L. (1988). A BASIC factorial analysis of covariance program for three microcomputer families. **20**, 419.
- DAWSON, M. R. W. (1988). Fitting the ex-Gaussian equation to reaction time distributions. **20**, 54-57.
- EAMON, D. B. (1988). Enhancing Applesoft using ampersand routines. **20**, 224-230.
- EMERSON, P. L. (1988). FISHTAIL: Practical *F* integration on small computers in BASIC and C. **20**, 65-69.
- ERGNER, D., & WELLENS, A. R. (1989). DataVision: A computer-based system for generating and reading digital information accompanying video images on videotape. **21**, 401-407.
- GALLA, J. P. (1989). BASIC statistics for IBM computers: An integrated instructional statistical package. **21**, 481.

Other

JONES, J. A., MILLER, B. O., & SCARBOROUGH, D. L. (1988). A rule-based expert system for music perception. **20**, 255-263.

Psycholinguistics

LIEBHABER, M. J. (1988). A computer model of inflection learning. **20**, 246-254.

Vision

LANDY, M. S., MANOVICH, L. Z., & STETTEN, G. D. (1989). All about EVE: The early vision emulation software. **21**, 491-501.

SOFTWARE

Evaluation and Comparison

ANDERSON, M., HORNBY, P., & BOZAK, D. (1988). COMPsych: A computerized software information system. **20**, 243-245.

BUTLER, D. L. (1988). A critical evaluation of software for experiment development in research and teaching. **20**, 218-220.

BUTLER, D. L., & NEUDECKER, W. (1989). A comparison of inexpensive statistical packages for microcomputers running MS-DOS. **21**, 113-120.

SPSS

KINGMA, J., & TAERUM, T. (1988). A FORTRAN 77 program for a nonparametric item response model: The Mokken scale analysis. **20**, 471-480.

SOUND

BURKE, R. S. (1988). Production and control of auditory signals in attention research using the Apple-Psych system. **20**, 171-174.

COHEN, A. J., & MIESZKOWSKI, M. (1989). Frequency synthesis by the Commodore Amiga for research on perception and memory of pitch. **21**, 623-626.

YAPHE, M., RAFTERY, E., & JAMIESON, D. G. (1989). A general-purpose facility for adaptive testing in psychoacoustics. **21**, 275-280.

SPEECH

MERTUS, J. (1989). Standards for PCM files. **21**, 126-129.

YAPHE, M., RAFTERY, E., & JAMIESON, D. G. (1989). A general-purpose facility for adaptive testing in psychoacoustics. **21**, 275-280.

Synthesized Speech

LOCK, S., & LEONG, C. K. (1989). Program library for DECtalk text-to-speech system. **21**, 394-400.

WISE, B., OLSON, R., ANSTETT, M., & ANDREWS, L., TERJAK, M., SCHNEIDER, V., KOSTUCH, J., & KRIHO, L. (1989). Implementing a long-term computerized remedial reading program with synthetic speech feedback: Hardware, software, and real-world issues. **21**, 173-180.

Voice Recognition

BOLES, D. B. (1988). Voice recognition with the Apple-Psych system. **20**, 158-163.

STATISTICAL ANALYSIS

ANCOVA and follow-up tests

DAWSON, D. L. (1988). A BASIC factorial analysis of covariance program for three microcomputer families. **20**, 419.

ANOVA and follow-up tests

MARTIN, S. A., & TOOTHAKER, L. E. (1989). PERITZ: A

FORTTRAN program for performing multiple comparisons of means using the Peritz Q method. **21**, 465-472.

- ROSSI, J. S. (1988). ONEWAY: A BASIC program for computing ANOVA from group summary statistics. **20**, 347-348.
- VERCRUYSEN, M., & EDWARDS, J. C. (1988). ANOVA/TT: Analysis of variance teaching template for Lotus 1-2-3. **20**, 349-354.

Chi-Square

- DUNLAP, W. P. (1989). A program for exact power of the 2×2 chi-square. **21**, 645-646.

Correlations

- BROPHY, A. (1988). A BASIC program for the multistage Bonferroni procedure for many correlations. **20**, 416-418.
- DUNLAP, W. P., & KEMERY, E. R. (1988). Biserial and point-biserial correlation with correction for nonoptimal dichotomies. **20**, 420-422.
- SILVER, N. C., & HOLLINGSWORTH, S. C. (1989). A FORTRAN 77 program for averaging correlation coefficients. **21**, 647-650.

Distributions

- BROPHY, A. L., & WOOD, D. L. (1989). Algorithms for fast and precise computation of the normal integral. **21**, 447-454.
- DAWSON, M. R. W. (1988). Fitting the ex-Gaussian equation to reaction time distributions. **20**, 54-57.
- EMERSON, P. L. (1988). FISHTAIL: Practical F integration on small computers in BASIC and C. **20**, 65-69.
- WOOD, D. L. (1988). Advanced algorithms for the numerical integration of t . **20**, 60-62.

Factor Analysis

- LONGMAN, R. S., COTA, A. A., HOLDEN, R. R., & FEKKEN, G. C. (1989). PAM: A double-precision FORTRAN routine for the parallel analysis method in principal components analysis. **21**, 477-480.
- VOKEY, J. R. (1989). Matching factor structure using orthogonal rotation to congruence. **21**, 84-85.

Fourier Analysis

- EMERSON, P. L. (1988). Compact C language Fourier analysis on small computers. **20**, 423-426.
- EMERSON, P. L. (1989). NEWSART: Negative binomial weighted spectral analysis in real time. **21**, 353-368.
- YOST, M., BREMNER, F. J., & NASMAN, V. T. (1988). Using three-dimensional graphics in neuropsychological hypothesis testing. **20**, 108-112.

Game Theory

- SAKURAI, M. M., & BRENNAN, J. M. (1989). Computing the Harsanyi function $H(S)$ for n -person cooperative transferable utility normal form games. **21**, 535-539.
- SAKURAI, M. M., & BRENNAN, J. M. (1988). Computing the von Neumann-Morgenstern characteristic function $v(S)$ for cooperative n -person transferable utility normal form games. **20**, 367-371.

Lag Sequential Statistics

- SYMONS, D. K., WRIGHT, R. D., & MORAN, G. (1988). Computing lag sequential statistics on dyadic time interval data: The TLAG program. **20**, 343-346.

Meta-analysis

- SCHWARZER, R. (1988). Meta-analysis programs. **20**, 338.

Nonparametric Statistics

- KINGMA, J., & TAERUM, T. (1988). A FORTRAN 77 program for a nonparametric item response model: The Mokken scale analysis. **20**, 471-480.

Other

- BEINS, B. C. (1989). An Applesoft BASIC program for the G-statistic: An alternative to the chi-square test. **21**, 627-629.
- BERRY, K. J. (1989). An APL function for the asymptotic test of significance for Goodman and Kruskal's gamma statistic. **21**, 473-476.
- BERRY, K. J., & MIELKE, P. W., JR. (1988). APL approximations for common statistical critical values. **20**, 339-342.
- BREMNER, F. J., YOST, M., & NASMAN, V. T. (1989). Statistical analysis of fuzzy-set data from neuronal networks. **21**, 209-212.
- BRENNAN, J. M., NITZ, L. H., & DALY, J. E. (1988). An APL program for measures of association for ordinal variables. **20**, 429-431.
- CACIOPPO, J. T., MARSHALL-GODELL, B. S., TASSINARY, L. G., CHEN, F., SIEGEL, S. J., & DORFMAN, D. D. (1988). Waveform moment analysis: An ASYST program for topographical analyses of nonnegative bounded waveforms. **20**, 517-527.
- MALCOLM, D. S. (1989). A BASIC program for exploratory data analysis. **21**, 463-464.
- MAY, R. B., MASSON, E. J., & HUNTER, M. A. (1989). Randomization tests: Viable alternatives to normal curve tests. **21**, 482-483.
- MICHENER, H. A., ABRAMS, C. L., & EBERT, R. F. (1989). MAUA145: A PASCAL program for multi-attribute utility analysis. **21**, 651-652.
- SCHLOTTMANN, R. S. (1989). A BASIC program for classification analysis using proportional and maximum chance estimates of prior probabilities. **21**, 636-638.
- SCHNEIDER, W. (1988). Sensitivity analysis in connectionist modeling. **20**, 282-288.
- WOLACH, A. H., & MCHALE, M. A. (1988). Orthogonal comparisons. **20**, 337.
- YOST, M., GINDLER, L., & BREMNER, F. J. (1988). Multivariate statistics and three-dimensional graphics. **20**, 113-117.

Regression

- ANSON, J. (1988). ROBREG: An APL procedure for fitting robust regression lines using Huber's M-estimate. **20**, 579-582.
- KRIEG, E. F., JR. (1988). A FORTRAN 77 program for the runs test. **20**, 361.
- STRUBE, M. J. (1988). Calculation of significance regions for multiple predictors by the Johnson-Neyman technique. **20**, 510-512.

Scalings and Ratings

- KINGMA, J., & TAERUM, T. (1988). A FORTRAN 77 program for a nonparametric item response model: The Mokken scale analysis. **20**, 471-480.
- WATKINS, M. W., & KUSH, J. C. (1988). Micro-CONGRU: A microcomputer program for measuring levels of overall and partial congruence among multiple observers on nominal scales. **20**, 513-514.

Statistical Packages

- BRADLEY, D. R. (1989). Computer simulation with DATASIM. **21**, 99-112.
- BUTLER, D. L., & NEUDECKER, W. (1989). A comparison of inexpensive statistical packages for microcomputers running MS-DOS. **21**, 113-120.
- GALLA, J. P. (1989). BASIC statistics for IBM computers: An integrated instructional statistical package. **21**, 481.
- HODGE, M. H., & PITTINGER, D. J. (1988). More statistical programs for Commodore computers. **20**, 427-428.
- WOLACH, A. H. (1988). ANOVA, Latin square, and ANCOVA for IBM-compatible microcomputer systems. **20**, 585-586.

Structural Equation Modeling

- BENJAFIELD, J. (1988). Solving path diagrams with EUREKA. **20**, 307-309.

STIMULUS GENERATION AND SELECTION

- GREENE, S., RATCLIFF, R., & MCKOON, G. (1988). A flexible programming language for generating stimulus lists for cognitive psychology experiments. **20**, 119-128.
- TURNER, S. L., & MACLEOD, C. M. (1988). SLIDE MAKER: A BASIC program to create 35-mm slides of verbal materials. **20**, 355-358.

SYSTEMS

Mainframe

VAX

- LANDY, M. S., MANOVICH, L. Z., & STETTEN, G. D. (1989). All about EVE: The early vision emulation software. **21**, 491-501.
- MARTIN, S. A., & TOOTHAKER, L. E. (1989). PERITZ: A FORTRAN program for performing multiple comparisons of means using the Peritz Q method. **21**, 465-472.
- SILVER, N. C., & HOLLINGSWORTH, S. C. (1989). A FORTRAN 77 program for averaging correlation coefficients. **21**, 647-650.

Microcomputer

Apple
