used experimentally. There is no evidence that this effect functions in a backward direction across an implicit mediator.

Bogartz, W., & Headrick, A. The length-difficulty law of serial learning: An empirical function and a theoretical derivation. *Psychon. Sci.*, 1965, 3, 357-358.

On page 358, equation (1) should read

$$(1) \quad e_{n+1} = (1-\theta) e_n$$

and equation (5) should read

$$(5) \quad E = (r - e_{t+1}) / \theta$$
