There is an error in Equation (9), Appendix 2: the term in parentheses in the numerator should be raised to the third power. We thank Tobias Johansson for bringing this omission to our attention.

The correct equation is:
$$a = \frac{\sum (\bar{\theta} - \hat{\theta}_{-i})^3}{6 \left[\sum (\bar{\theta} - \hat{\theta}_{-i})^2 \right]^{3/2}}$$

Also, on p. 919, the citation “Rosnow et al., 2000, pp. 128-130” should have been “Rosenthal et al., 2000, pp. 128-130.” The reference is to

Rosenthal, R., Rosnow, R. L., & Rubin, D. B. (2000), *Contrasts and effect sizes in behavioral research*. NY: Cambridge University Press.

We thank Pierre Dragicevic for catching this error.
