

## ERRATUM

D'AMATO, M. R., & COLOMBO, M. (1985). Auditory matching-to-sample in monkeys (*Cebus apella*). *Animal Learning & Behavior*, **13**, 375-382—Due to an error in the algorithm used to calculate the frequencies generated by the PET computer, the frequencies reported for the MT, the HT, and the gliss tune were inaccurate. The correct frequencies are 947, 3676, and 1437-8333 Hz, respectively.
