## **Publications Office Now Able to Accept Some Macintosh Disks**

To facilitate publication and to hold down costs, the Publications Office has expanded its capabilities in processing manuscripts accompanied by floppy disks, and we are pleased to announce that, in addition to all types of DOS disks, we now can accept Macintosh *low-density* 400K and 800K disks. Please note that we cannot use high-density Macintosh disks, and also that we are not yet able to process MacWrite files.

All disk files should be supplied in ASCII format. (ASCII is referred to by some word processing software as "nondocument" or "text-only" mode. See the software manual for more information.)

Detailed information will be supplied by the Editor's office upon acceptance of a manuscript. Feel free, nevertheless, to call the Publications Office for any further information needed (512-462-2442).
