

ERRATUM

Correction to Urcelay, G. P., & Miller, R. R. (2008). Counteraction between two kinds of conditioned inhibition training. *Psychonomic Bulletin & Review*, **15**, 103-107. The coding of the conditions in the legend of Figure 2 on p. 106 was reversed. In reality, black bars represent the Control groups and the white bars represent the groups that were tested on the putative inhibitor (Retardation), as shown below.
