The Publisher regrets that, due to a typesetting mistake, it has now become necessary to make the following corrections:

All phonetic transcriptions (between square brackets and slashes) should be corrected and displayed as follows, in the same font:

Page 2, left column

- *pain* [pɛ̃] “bread”
- *peigne* realized [pɛɲ] or [pɛ̃ɲ] “comb”
- e.g., *grand-mère* [ɡʁɑ̃mɛʁ] “grandmother,” as opposed to *grammaire* [ɡʁamɛʁ] “grammar”

Page 2, right column

- (e.g., *peigne* realized [pɛ̃ɲ] and contrastive nasal vowels (e.g., *pain* realized [pɛ̃]).

Page 3, left column

- *pain* (/pɛ̃/ “bread”) and *paix* (/pɛ/ “peace”)
- /ɛ̃, ɑ̃, ɔ̃, œ̃/
- if the vowel in *pain* [pɛ̃] “bread” is produced with an excrescent nasal appendix (i.e., [pɛ̃^ɲ]), it could be confused with the word *peigne* ([pɛɲ] “comb”)

Page 3, right column

- (i.e., a part or the entirety of the vowel in *pain* [pɛ̃] “bread”) onto vowels that can be coarticulatorily nasalized (i.e., *peigne* [pɛɲ] “comb”)

Page 4, right column

- midfront [ɛ–ɛ̃], three contained low [a–ɑ̃], and three contained midback [ɔ–ɔ̃]. Note that the vowels [œ–œ̃]

Page 5, Table 1 – Please correct all transcriptions (same font across the table, tilde above the correct character in the IPA columns)

Page 6, left column

- For example, CV̇ *pain* (“bread” [pɛ̃]), CVN *peigne* (“comb” [pɛɲ]), CVC *pêche* (“peach” [pɛʃ]) and filler *pluie* (“rain” [plɥi]; see Fig. 2)
- Fig. 2 caption: (*pain* “bread” [pɛ̃]), one from the CVN condition (*peigne* “comb” [pɛɲ]), one from the CVC condition (*pêche* “peach” [pɛʃ]), and lastly there was one filler image (e.g., *pluie* “rain” [plɥi])

Page 8, right column

- Correct “appendixS2” for “appendix”

All instances of the word “appendix” with no capital letter refer to the Appendix section in blue, while it is a technical word that should not refer to a section.

The references to the actual Appendix section are on Page 5 “Table 3 of the Appendix”, Page 8 “Table 4 of the Appendix”, “Table 5 and Table 6, respectively, in the Appendix”, Page 12, left column “Table 7 of the Appendix”, “Table 8 and Table 9, respectively, in the Appendix”. All other instances of the word “appendix” should be in black.
