There were two errors in this article as originally published:
On the 2nd page of the article, next to last line, **Reid** was meant instead of **Read**.

On the 9th page, under “Believability judgment task”, it should say “**Carl answers: “[I saw that / somebody told me that / no source claim] the Lakers won by 2 points.”**”
(The “/” was missing in the original version.)

The original article has been corrected.
