<https://doi.org/10.3758/s13428-014-0538-z>

Equation (26) is formatted incorrectly in the pdf version. It should appear as follows:

$$A = \frac{(N^T)^2 \sum_{i=1}^m n_i^2 + \left(\sum_{i=1}^m n_i^2 \right)^2 - 2N^T \sum_{i=1}^m n_i^3}{(N^T)^2} \quad (26)$$
$$= N^T \tilde{n} + \tilde{n}^2 - 2 \sum_{i=1}^m n_i^3 / N^T.$$

The online version of the original article can be found at <https://doi.org/10.3758/s13428-014-0538-z>
