

# Index

Tables are indicated by a 't' after the page number; Figures are indicated in *italics*.

- Academic ranking, in science, 447–449, 448t  
Addams, Jane, 8  
Agrarian societies, gender stratification in, 74–75  
Allopathic physicians, 484  
Alzheimer's disease, 474–475  
Analytic categories, feminist challenge to, 34  
Anthropological history, of gender: *see* Stratification, of gender  
Antifeminist politics, 160–161  
Assault, 283–286  
    sexual, 286–288; *see also* Rape  
Attributes, of gender, 48–57; *see also* Epistemology, feminist  
    social change and, 56–57  
Audience studies, 203–205  
Authority  
    in scientific research, 450–452  
    in social research, 32–33  
Autoimmune diseases, 469  
  
Backchanneling, conversational, 260–261  
Bale's theory, of interactional behavior, 259–260  
Biology, and socialization, 216–217  
Birmingham Centre for Contemporary Cultural Studies, 202–203  
Bodily modifications, 280–292  
Buddhism, role of women in, 606–607  
  
Campaigning, and fundraising, 522–524, 530–531  
Cancer, 471–473  
Cardiovascular disease, 470–471  
Caregiving: *see* Childcare; Healthcare  
Categorization, analytic, 34–35  
  
Childcare, 380–381  
    gender and responsibilities for, 381–386  
    responsibility for, 381–386  
Childhood engenderment theories, 18–19  
Chodorow, Nancy  
    individuated consciousness of, 30  
    neo-Freudian theory of, 18–19  
Christianity, role of women in, 607–615  
    the Catholic church and, 608–609  
    influencing factors in, 612–613  
    the Protestant churches and, 609–611  
Classical tradition, in sociology, 4–8  
Classroom interaction, in education, 419–420  
Coercive sex, 286–288  
Cognitive developmental theory, of socialization, 218  
Cognitive learning theory, 219–220  
College majors, gender parity in, 422  
Computer access, gender parity in educational, 422–423  
Comte, Auguste, 4  
Counter movements, to feminist movements, 166–167  
Crime, 537–549; *see also* Criminal justice  
    patterns of gender in, 538–544, 539t, 540t, 542t–544t  
    theories of, 544–549  
    feminist challenges to, 548–549  
Criminal justice, 549–558; *see also* Crime  
    concept of women and, 550–551  
    ethnomethodologic approach to, 557  
    future developments in, 557–558  
    institutionalization in, 553–556  
    sentencing in, 551–553  
Cultural representation, of women, 198–199

- Cultural studies: *see* Feminist/cultural studies
- Curricula, and gender parity  
in education, 421–423  
in medical education, 494–497
- De Beauvoir, Simone, 156
- Depression, mental, 476–477
- Diabetes, 473
- Distinction, of gender, 45–58  
concepts of, 53  
differences in, 51–53  
interactional, 54  
methodological problems in, 51  
multiple attributes and, 55–56  
orientation toward, 48–56  
sex in, 46–48  
variables other than, 54  
social change and, 56–57  
theoretical frameworks of, 49–51
- Division of Labor in Society* (Durkheim), 5
- Doctor–patient relationship, 497–498
- Doing gender theory, of interactional behavior, 250
- Domestic violence, utilization of healthcare due to, 504; *see also* Violence
- Dominance, as interactional behavior, 263–267; *see also* Family relationships
- Domination, social, feminist challenge to, 35–36; *see also* Power balance; Stratification
- Durkheim, Emile, 5
- Eagly's theory, of interactional behavior, 251
- Earnings disparities, 357, 357–366; *see also* Economics; Labor market; Organizations  
comparison of men's and women's earnings in (1955–1995), 360  
devaluation of job status in, 365–366  
productivity as explanation for, 358–362  
sexual and racial segregation in, 364–365  
unequal pay for same education/experience in, 362–364
- Eating disorders, 469
- Economics, global, 81–102; *see also* Poverty; Workplace inequalities  
restructuring of, 83–98  
export marketing development in, 86–89  
institutional, 96–98  
market orientation in, 83–86  
multinational corporations in, 89–93  
nongovernmental organizations in, 96–98  
Structural Adjustment Programs in, 93–96  
Third World women in, 98–102
- Education, 407–433; *see also* Medicine; Science  
access to, 408–411  
trends in, 411–415, 414*t*  
consequence(s) of, 428–433  
earnings advancement as, 430–431  
economic development as, 429  
occupational advancement as, 430–431  
physical well-being as, 428  
political participation as, 429–430
- Education (*cont.*)  
experience of, 415–423  
classroom interaction in, 419–420  
curricula in, 421–423  
peer interaction in, 417–418  
staffing patterns in, 420–421  
medical, women and, 495–497, 496*t*  
1950–1998, 495*t*  
single-sex *versus* coeducational, 424–426  
test and achievement results in, 426–427  
Women's Studies programs in, 423–424
- Emergent leadership, 263–265  
dominance and, 265–267
- Emotion work, in family relationships, 393–397  
gender division of labor and, 394–395  
parenting roles and, 395–397
- Employment: *see* Healthcare; Labor market; Medicine; Military; Organizations; Science; Workplace inequalities
- Engels, Friedrich, 5
- Epistemology, feminist, 25–40; *see also* Attributes  
alternatives offered by, 36–38  
implications of, 38–40  
mainstream sociology and, 31–36  
objectivity and subjectivity in, 38–40  
positivist, 25–27  
standpoint theory in, 27–29, 30–31
- Equal Rights Amendment, 154–155, 160–161
- Ethnomethodology, 16
