 94, 106, 121
Brah, A., 24, 31, 32, 66, 108,
 147, 148
British medical sociology, 48
British South Asian population,
 Hindu Gujarati section of,
 91
British values, 70

C

CAM systems. *See* complementary and alternative medicine (CAM) systems

causality

certain-uncertainties, 79
 genetic models of, 172
 misattributions of, 49–50

community, 107–8
 and identity, 151–2
 familiarity, 113–16

complementary and alternative medicine (CAM) systems, 130, 131

Conceptualising culture, 16, 17

conceptualising race in health, 16–17

coping, 157–60

crude antiracism, 32

crude multiculturalism, 32

Cultural deficit, 19, 75, 76, 100, 172, 189

cultural difference, 16
 concepts of, 25

‘cultural’ formulations of non-compliance, 73

cultural/lifestyle arguments, 173

cultural pathology, 66

Cultural recoding, 168

cultural validations process, 93–4, 152, 189
 qualitative methodology, 187

cultural values, 80

culture, 23–5

D

democratization of genetic knowledge, 175

diabetes
 defining, 40
 global and national burden of, 2
 social and cultural context of, 119–21
 sociological exploration of, 7
 as trouble and issue, 65–7
 types of, 41–2

diagnosis
 checking, 111–12
 finding out about, 109–11

dialectical nature of ethnicity, 142

difference
 bio-politics of, 30–3
 categories and labels of, 22–7

disciplinary power, 190

‘Discursive spaces’, 79

docile bodies, 177

‘Doing diabetes’, 105–26

Duster, T., 171, 179, 188

E

embodied ‘balancing’ act, 139

Embodied resistance, 101, 107, 134, 143, 189–93

‘empowerment,’ notion of, 191

epidemiological models, 28

Epidemiology, contested, 51

Equality Act (2010), 74

‘ethnic’ diabetes, politics of, 67–71

ethnicism, 32

ethnicity, 25
 dialectical nature of, 142
 epidemiology and, 27–30
 in health, 16–17

ethnicity-related diabetes initiatives, 71–7

‘ethnic-specific’ health, 69

ethno-folk help-seeking models, 135
 Ethno-racial geneticisation, 173
 Ethno-racial risk package, 176
 'European' rationality, 19
 Everett, M., 140
 exercise, 116–19
 and activity, 63

F

fact-file approach, 169
 Fassin, D., 20, 192
 Faulty lifestyles and genes, 61–80
 Ferreira and Lang, 48, 78, 91, 92,
 105, 134, 141, 157, 178,
 188, 191
 Food and Social Eating, 121–4
 Foucault, M., 7, 64, 168, 176, 191

G

gene–environment interaction
 model, 171–2
 genetic black-boxing of race, 171
 genetic knowledge, democratization
 of, 175
 genetic models of causality, 172
 Genetic optimism, 174
 Gilroy, P., 33, 49, 176
 global human movement, impact
 of, 54
 Gujarat, 90–2
 Gunaratnam, Y., 33, 93, 168, 169

H

Hall, S., 16, 17, 23, 27, 93, 168
 Happe, K., 49, 65, 172, 177

health

 bio-politics of, 30–3
 conceptualising race and ethnicity
 in, 16–17
 racialisation of, 20
 reorienting 'other' systems of, 131–2
 health–ethnicity discourse, 16
 Hedgecoe's sociology of scientific
 knowledge, 46
 hegemonic normalisations, 172
 'help seeking' behaviour, 9
 herbal remedies, use of, 130–1
 Hindu Gujaratis, 89, 151
 humoral theory, 139

I

identity, 123, 148
 community and, 151–2
 politics, 22
 'ideological' category of race, 22
 IDF, 51, 54, 62
 insulin production, dysfunction in, 41

K

Karlsen, S., 23, 66, 67
 Kelleher, D., 25–6, 122–3
 Keval, H., 4, 6, 19, 70, 78, 93, 101,
 123, 162, 169, 172
 Kleinman, A., 101, 131, 142
 knowledge, traditional forms of, 131
 Krieger, N., 20, 28, 55

L

Lawton, J., 26, 43, 45, 91, 106
 'lay health' beliefs, 114

'lay health' experiences, 43–4

lifestyle

arguments, 67

factors, 61

notion of, 63

Liminal spaces, 89

Lock, M., 176

London, Bangladeshi population

in, 26

'loss of self' approach, 46

M

Mature Onset Diabetes, 41

medical anthropological

community empowerment

models, 191

medical uncertainty, evolution of, 170

Methodology, qualitative, 87

Montoya, M., 7, 29, 30, 46, 75, 100,

N

National Institute for Health Care

and Excellence (NICE),

74–5

Nazroo, J., 20–3, 25, 50, 67, 109, 158

new racism, 16

NHS, 68

non-insulin-dependent diabetes

mellitus (NIDDM), 41

North American anthropology, 105

nutrition, social and cultural context

of, 119–21

O

O'Brien, M., 63–4

P

Parekh, B., 108, 148

politics of 'ethnic' diabetes, 67–71

R

'race-health' research, 160

Race making, 185

race thinking, 16

racial gaze, 19–20

racial genetic gaze, 176

racialisation of health, 20

racialising narrative, 79

Reed, K., 94, 101, 115, 130, 136, 159

'relative risk,' 28

religion, 133, 160–2

'researcher' and 'researched' roles, 92–5

Resistance, spaces of, 182

Rickets, 31

Risky Genes, 179

'risk package', 46–8, 66, 76, 78

Rock, M., 52, 75, 105

Rose, N., 79, 174–5

S

scientific 'reality' of gene, 176

sedentary lifestyles, 63

social action process, 94

social eating, 121–4

sociological exploration of diabetes, 7

South Asian culture, homogenised

category of, 23–4

South Asian diabetes risk
 biography, role of, 45–6
 complications, 42–3
 defining, 40
 genetic possibilities in, 174
 South Asian picture, 51–5
 trends, patterns, and politics of
 counting, 50–1
 types of, 41–2
 spiritual frameworks, 162
 ‘structures of relevance,’ role of, 159
 ‘subjugated knowledges,’ 188
 susceptibility, 172
 symbolic ethnicity, 26
 ‘syncretic’ approach, 134

T

therapeutic nihilism, 177
 ‘thrifty gene’ hypothesis, 78–9

‘thrifty genotype’, 171
 traditional forms of knowledge,
 131
 traditional medicines, use of, 130–1,
 133–9
 ‘transnational’ identity, 118
