

Index

- AASHO basic equation 60
- AASHO Interim Guide 87-93
- AASHO slope profilometer 59
- Accelerated polishing test 270
- Aggregate abrasion test 271
- Air entrained concrete 106-9
- Artificial roadstones 255
- Asphalt Institute method of overlay design 238-44
- Asphalt mixing plants 33
- Asphaltic concrete 23
- Augers 162
- Axle loads 60

- Base and sub-base construction 193-4
- Basecourse material 17, 22
- Beckton tray test 1
- Belt conveyors 180
- Benkelman beam 221-7
- Bitumen 1
- Bitumen road emulsion 2
- Bituminous layer thickness 16, 17
- Bituminous paving machines 197-9
- Bituminous roadbase material 16
- Bituminous surfaced concrete slabs 139
- Braking force tests 258
- Bulldozer 172
- Burnt colliery shale 29
- Bush hammering 277

- Calcined bauxite 255
- California Bearing Ratio Test 66, 67-70, 94
- Cement bound granular material 29
- Characteristic concrete strength 110
- C.M.I. Autograde paver 210
- Coated macadam 14, 18
- Coated macadam mixing plants 32
- Coatmaster DFE bituminous coating plant 39
- Cold asphalt 20
- Compaction bituminous materials 199-203
- Concrete mix design 110-15
- Concrete roads, joints 207 paving machines 203-7 texturing and curing 211
- Concrete strength 129
- Continuously reinforced concrete pavements 130
- Contraction joints 119, 125
- Culverts 157
- Cutback bitumen 2

- Depot tray test 253
- Dowel bars 117-19
- Drum mixing plants 33
- Dump trucks 178
- Dynafleet 235
- Dynamic deflection 235-6

- Equi viscous temperature 1, 2
- Excavators 177-8
- Expansion joints 116, 125
- Extraction bottle method 48-51

- Failure criteria 57, 58
- Flakiness index 246

- Flexible pavement thickness
