

UPDATED BIBLIOGRAPHY OF SOCIO-ASTRONOMY

Introduction

The following lists gather together publications (from 1980 onwards) on socio-astronomy and on the interactions of the astronomy community with the society at large. A few related contributions have also been included, as well as the decennial reports from the US National Research Council. The first part is chronological and the second one, purely alphabetical on the authors names.

It is of course impossible such a list be complete and we apologize to authors whose related publications could have been omitted. For inclusion in future releases of this compilation and of its web version¹, please send an e-mail² with the full bibliographical references (including title).

The Editor gratefully acknowledges the assistance of all persons who contributed to the substance of the following list.

Chronological list

1980

1. Abt, H.A. 1980, The Cost-Effectiveness in Terms of Publications and Citations of Various Telescopes at the Kitt Peak National Observatory, *Publ. Astron. Soc. Pacific* **92**, 249-254
2. Stebbins, R.A. 1980, Avocational Science: The Avocational Routine in Archaeology and Astronomy, *Int. J. Comp. Sociology* **21**, 34-48

1981

3. Abt, H.A. 1981, Long-Term Citation Histories of Astronomical Papers, *Publ. Astron. Soc. Pacific* **93**, 207-210
