

# Afterword

## **Authoring as Transformation: Personal Reflections on Learning While Writing**

Writing this book has been transformative in and of itself. As I expressed my beliefs, described my practice, and edited my language I was acutely aware of how much I was growing in my perspective. Dialogue about my work took on new forms. I was fortunate to have a committed critical friend during this time who helped me to examine that which I could not see up close. I was often requested to describe my book to friends, colleagues, and even strangers who sat next to me on a plane. All of these conversations served to not only help me develop new understandings for and about myself, but they raised awareness about the issues with others in ways that may not have happened otherwise. For these reasons, I am grateful for the opportunity to author this book.
