

Index

- Abort statement, 135
- Absorption, Laws of, 39, 50, 68
- ALGOL 60, 145
- Alternative construct, 144, 174
- And-continuity, 87, 90–91, 99, 107, 109, 112, 162–169
- Anthropomorphism, 122, 124
- Antitransitivity, 62
- Assignment, Axiom of, 214
- Assignment statement, 136–137, 214
- Associativity, 10, 13, 32–33
- Atomic symbols, 27
- Auto-distribution, 36, 47

- Bags, of predicates, 84–88, 160, 202
- Binding power, 9, 11, 13, 42
- Boolean matrix, 7
- Boolean scalars, 8, 32, 34, 51, 54, 65
- Bound variables, 16
- Brackets, 9

- Calculational proofs, 21–29
- Celestial variables, 118
- Circuit design, 59
- Combinatorial logic, 103
- Commutativity, 33

- Composition theorems, 112–116, 139
- Compound statements, 190
- Computations, partitioned, 127–128, 130, 194, 209
- Conjugates, 201
- Conjunction, 28, 114, 132, 159, 162, 172
 - binding powers and, 42
 - defined, 37
 - disjunction and, 39–40, 114
 - equivalence and, 40
 - everywhere operator and, 23, 98
 - false value and, 54
 - interpretation of, 42
 - properties of, 38
 - punctuality and, 96
 - universal quantification and, 62–64, 69, 78, 98, 142
- Conjunctivity
 - inheritance of, 167
 - weakest solutions and, 160
- Consequence, 26, 49
- Constant functions, 96
- Context-free grammars, 11
- Continuity, 87, 111, 164. *See also* And-continuity; Or-continuity
- Contra-positive theorem, 57, 61
- Converses, defined, 201
- Curry functions, 103

- Decreasing chains, 177
- De Morgan's laws, 37, 71, 78, 172
- Deterministic programs:
 - assignment and, 137
 - defined, 17, 126
 - efficiency and, 146
 - guards and, 142–145, 174
 - input–output and, 124
 - repetitions and, 174–175
 - role of, 132
- Dirac delta function, 79
- Directed graphs, 175
- Discrepancy operator, 57
- Disjoint guards, 144
- Disjunction, 35, 36, 162
 - binding powers, 42
 - conjunction and, 39, 40, 98, 114
 - continuity and, 99
 - equivalence and, 37
 - existential quantification and, 100
 - idempotence of, 37
 - interpretation of, 42
 - negation and, 51, 53
 - universal quantification and, 63, 69
- DO statement, 85, 147, 170–189, 194
 - determinacy and, 173
 - operational interpretation of, 199
 - semantics of, 192
 - termination of, 174
- Duality, 85
- Dummy variables, 11, 13, 65, 73, 79

- Electronic design, 42
- Equality, 6, 43
 - boolean operands and, 31
 - equivalence and, 9
 - functions and, 9, 17–20
 - transitivity of, 43
 - sign, 6, 8, 10
- Equations, solution of, 147–169
- Equivalence, 31–32, 51
 - associativity of, 59
 - conjunction and, 40
 - disjunction and, 37
 - equality and, 9
 - implication and, 62
 - negation and, 51
 - punctuality of, 43
 - reflexivity of, 34
- Eternal computations, 126, 194
- Everywhere operator, 8, 10, 27, 31
 - conjunction and, 23, 98, 133
 - connections of, 80
 - idempotence of, 32
 - identity operator and, 23
 - punctuality and, 82
 - universal quantification and, 58, 65, 105, 205, 207
- Excluded Middle, Law of, 53, 58, 127
- Excluded Miracle, Law of, 130, 170, 182
- Existential quantification, 70, 78, 100
- Extreme solutions, 129, 147–170, 196
