# Index

## A

Abelian manifold 1  
Abelian variety 1  
Admissible 20, 25, 31, 73, 127  
Admit CM 76  
Associated character 90, 102  
Associated Riemann form 68  
Associated theta function 68

## B

Basic character 102  
Basic polar divisor 68

## C

Casselman's theorem 139  
Character 84, 93  
Characteristic polynomial 117  
Class fields 136  
CM character 87, 104, 139  
CM field 6  
CM type 6, 139  
Compatible polarization 72, 127  
Complex conjugation 6, 75  
Complex multiplication 15, 76  
Complex representation 3  
Complex torus 1  
Congruence relation 61  
Cyclotomic fields 24

## D

Defined at a point 36  
Defined over  $k$  41, 54, 69, 135  
Defining ideal 93  
Deligne's theorem 176  
Descent 130, 139  
Differential forms 36, 51

## E

Endomorphisms 2  
Equivalent 26, 33

## F

Fermat curve 29, 66, 129, 151  
Field of definition 54  
Field of moduli 122, 124  
Finite extension 94  
First kind 37  
First main theorem 78  
Frobenius endomorphism 49, 64, 86,  
88, 117

## G

Galois group 100  
Good reduction 44, 46, 100

## H

Hecke character 89

## I

Ideal character 93  
Invariant differential forms 37  
Involutions 4, 20, 70  
Isogeny 2

## K

Katz–Lang theorem 160  
Koblitz–Rohrlich 151  
Kubota's theorem 149  
Kummer variety 133

**L**

$l$ -adic character 104  
 $l$ -adic representations 45, 48, 102, 111, 117  
 Lattices 15  
 Lie homomorphism 152  
 Lifted character 97  
 Lifted type 7  
 Local parameters 36, 51

**M**

Main theorem of CM 78, 84  
 Manin–Mumford conjecture 98  
 Moduli 122  
 Multiplications 57, 73  
 Multiplicative 101

**N**

Néron model 47  
 Non-degenerate divisor 67  
 Non-degenerate reduction 44, 46  
 Non-degenerate Riemann form 1  
 Non-degenerate type 151

**P**

Polar divisor 68  
 Polarization 67  
 Polarized abelian variety 68, 71  
 Positive definite involution 4  
 Primitive point 138  
 Principal 56

**Q**

Quadratic subfield 106, 142

**R**

Rank of type 149, 153  
 Rational representation 3  
 Real field 6  
 Reciprocity 167  
 Reduction mod  $p$  43  
 Reflex 22, 149  
 Reflex type norm 22, 74  
 Reflex type trace 22  
 Representation 3, 48  
 Ribet's theorem 149, 162  
 Riemann form 1, 68, 73

**S**

Second main theorem 84  
 Serre–Tate theorem 46  
 Simple abelian variety 2  
 Simple factor 9  
 Simple type 8, 13  
 Splitting basis 63  
 Stickelberger distribution 28

**T**

Tate's formalism 173  
 Theta function 68  
 Trace 4, 22  
 Transform 57  
 Type 7, 13, 16, 55, 93, 170  
 Type norm 22, 62, 152  
 Type trace 22, 149  
 Type transfer 164

**U**

Unramified 46, 86

**Z**

Zeta function 91, 115
