

# Index

## A

- Abdominal abscess 185, 199, 228, 255–268
- Abdominal complications
- of biliary tract surgery 197–210
  - of diagnostic radiology 91–115
  - of drug therapy 1–44
  - of duodenal surgery 165–196
  - of endoscopy 45–63
  - of esophageal surgery 123–166
  - of gastric surgery 165–196
  - of intestinal surgery 211–233
  - of intubation 65–86
  - of radiotherapy 279–298
  - postoperative abscesses 255–268
  - postoperative hernias 269–278
- Abdominal hernias 269–278
- Abdominal wall hematoma 250
- Abdominal wall hernia 269
- Abscess, abdominal 185, 199, 228, 255–268
- computed tomography of 200, 255
  - cul-de-sac 256
  - gallium scanning of 255
  - hepatorenal fossa 256
  - inframesocolic 256
  - laparotomy sponge 264
  - lesser sac 152, 256
  - liver 99, 115
  - Morison's pouch 256–259
  - pancreatic 103
  - pelvic 256
  - pericardial 151
  - pouch of Douglas 256
  - retroperitoneal 245
  - retropharyngeal 46, 67
  - subhepatic 199, 256
  - subphrenic 52, 105, 151, 256
  - supramesocolic 256
- Achalasia, of the esophagus
- Heller myotomy for 133
  - pneumatic dilatation for 74
  - reflux esophagitis with 148
- Acidosis, postoperative metabolic 214
- Acute gastric dilatation 172, 187
- Adolph's meat tenderizer 37
- Aerophagia 172, 210
- Afferent loop dysfunction 226
- Afferent loop herniation 275
- Afferent loop obstruction 181
- Alkalosis, metabolic 77
- Allison procedure 136, 146
- Aluminum hydroxide, bowel obstruction with 37
- Anaphylactic shock 101
- Anaplastic anemia 28
- Anastomosis, gastrointestinal
- bleeding from 236
  - fistula from 228
  - leakage of 172, 185
  - ulceration of 143, 189
- Androgens, complications of 28
- Angiography, complications of 107–115
- Anorectal surgery 228
- Antacids
- bowel obstruction with 37
  - therapy of gastritis with 238
- Antecolic gastroenterostomy 168
- Antiarthritic drugs 3
- Antibiotics
- enterocolitis with 32
  - esophageal moniliasis with 29
  - esophageal ulceration with 3
  - urticaria with 35
  - use in cholangiography 106
- Anticholinergic drugs 8, 93
- Anticoagulants 11–14, 246
- Antireflux operations 134, 166
- Antral stricture, postsurgical 188
- Antrectomy 166
- Aortic prosthesis 153, 242
- Aortocaval fistula 228
- Aortoenteric fistula 242
- Aortoesophageal fistula 153
- Aortography complications 110, 245
- Appendectomy complications 211, 235, 255, 269
- Appendicitis, barium-induced 92

Arteriography, visceral  
 complication of 107–115  
 diagnosis by 236  
 Arteriovenous fistula 83, 105, 109, 228, 238  
 Aspiration pneumonia  
 following contrast media 92, 94, 124  
 following endoscopy 55  
 following intubation 66  
 following surgery 150  
 treatment of 156  
 Aspirin, side-effects of 2

## B

Bacteremia  
 after barium enema 100  
 after cholangiography 106  
 after splenoportography 113  
 Balfour operation 168  
 Barium enema  
 after colostomy 96  
 after endoscopy 98  
 bacteremia with 100  
 complications of 81–83, 95–100  
 toxic megacolon with 96  
 water intoxication with 99  
 Barium sulfate complications  
 appendicitis 92  
 aspiration 92, 124  
 bacteremia 100  
 bowel impaction 92  
 contamination 91  
 embolization 92, 99  
 mediastinitis 123  
 peritonitis 96  
 poisoning 91  
 tube impaction 68, 100  
 Beck gastric tube operation 129  
 Belsey Mark IV fundoplication 134, 146, 166, 168  
 Bezoars 178, 180  
 Bile duct  
 fistula 201  
 injury 204–207  
 stone 83, 106  
 stricture 204  
 Bile peritonitis 105, 198  
 Biliary fistulas 201  
 Biliary tract, surgical complications 197–210, 249  
 Billroth I procedure 167  
 bezoar after 178  
 gastritis after 238  
 Billroth II procedure 167  
 bezoar after 178  
 endoscopic perforation after 51  
 intubation after 75  
 reflux gastritis after 238  
 retroanastomotic hernia after 274  
 Biopsy complications  
 with endoscopy 45–64  
 with intubation 81  
 with liver biopsy 242

Bleeding. See *Hematoma* and *Hemorrhage*.  
 Blind loop syndrome 226  
 Blind pouch syndrome 226  
 Budd-Chiari syndrome 16, 19  
 Bypass enteritis 222

## C

*Candida albicans* 29  
 Cantor tube complications 80  
 Carcinoma, radiation-induced 294  
 Caster oil 22  
 Cathartic colon 22  
 Cecal distention, postoperative 214  
 Celestin tube 72, 126, 173  
 Celiac artery thrombosis 115  
 Chest tube complications 74  
 Chiba-needle cholangiography 106  
 Cholangitis 25, 104, 105  
 Cholangiography  
 Chiba-needle 106  
 endoscopic retrograde 103, 204  
 intravenous 102  
 operative 106  
 transhepatic 105, 201, 204  
 T-tube 83, 106, 208  
 Cholecystectomy complications 197–210, 255  
 Cholecystitis, postoperative 224  
 Cholecystographic agents 101  
 Cholecystostomy tube 202  
 Cholelithiasis  
 complication of surgery for 197–210  
 drug-induced 37  
 percutaneous extraction of 202  
 postoperative 214  
 Cholestyramine 37, 238  
 Chylothorax 110  
 Cimetidine 165, 214  
 Clindomycin, enterocolitis with 32  
 Clostridium difficile 33  
 Colitis  
 ischemic 14–18, 20, 22, 111–115, 142  
 pseudomembranous 32  
 radiation-induced 282, 293, 295  
 soap-sud enema 100  
 ulcerative 56, 96, 100, 216  
 Colonoscopy complications 55–63, 98  
 Colon perforation 56, 63, 95  
 Colon transplant 126, 141  
 Colostomy complications 96, 228  
 Computed tomography  
 of abdominal abscess 200, 255  
 of abdominal hernia 270  
 of intestinal complications 228, 231  
 of intramural bleeding 250  
 of peritoneal bleeding 110, 250  
 Continent ileostomy 214–219  
 Contrast media, complications of 91–122  
 Corticosteroids 3  
 Coumadin 11

Cricopharyngeal dysphagia  
 after endoscopy 55  
 after intubation 66  
 myotomy for 133  
 Cul-de-sac abscess 256  
 Cystic duct remnant 199, 207, 209

## D

Dacron, vascular graft 242–245  
 Dialysis, peritoneal 85  
 Diaphragmatic hernia 151, 274  
 Digitalis, intestinal infarction with 20  
 Disparaesophageal hernia 151, 274  
 Drugs, gastrointestinal complications of 1–44  
   contrast media 91–122  
   esophagitis 29, 37  
   gallstone 37  
   hemorrhage 1–6, 11–14, 25  
   hypomotility 7–10  
   incidence 1  
   liver tumors 25, 108  
   obstruction 37, 92, 94  
   overdose 102  
   pancreatitis 37  
   peritonitis 37  
   pseudo-obstruction 7–10  
   ulceration 2–6  
 Dumping syndrome 166, 191  
 Duodenal fistula 201  
 Duodenal stump leakage 184  
 Duodenal surgery, complications of 165–196  
 Duodenography, hypotonic 93  
 Dysphagia  
   cricopharyngeal 55, 66, 133  
   radiation-induced 282  
   postvagotomy 180  
 Dysuria, contrast-induced 101

## E

Ectopic gastric mucosa 190  
 Efferent loop dysfunction 182  
 Embolic materials 114  
 Endarteritis, radiation-induced 280  
 Endoesophageal prosthesis  
   applications of 126, 173  
   complications of 71  
 Endoscopic retrograde  
   cholangiopancreatography 103–105, 204  
 Endoscopy, complications of 45–64, 98, 103  
 Endotracheal tube 67, 158  
 Enteritis, iatrogenic 32, 35, 216, 282  
 Enterocolitis. *See also Colitis*  
   drug-induced 32–35  
   gold-induced 35  
   postoperative 222  
   pseudomembraneous 32  
   radiation-induced 282

Enterovaginal fistula 296  
 Enterovesical fistula 296  
 Epigastric hernia 273  
 Epiphrenic diverticulum 134  
 Esophageal hematoma  
   postoperative 246  
   postvagotomy 146  
   with anticoagulants 14  
   with hemophilia 247  
   with instrumentation 66, 246  
 Esophageal obturator airway 74, 158  
 Esophageal perforation  
   due to endoscopy 45–50  
   due to intubation 65, 158  
   evaluation of 123  
   surgical repair of 136  
 Esophageal stricture  
   alkaline-induced 144  
   due to moniliasis 29  
   due to potassium chloride 6  
   endoscopic perforation of 46–49  
   intubation-induced 74  
   postoperative 139  
   radiation-induced 283  
 Esophageal speech 156  
 Esophageal transection 134  
 Esophageal ulcer. *See also Esophagitis*  
   radiation-induced 283  
 Esophageal varices  
   biopsy of 55  
   decompression with tube 68  
   transcatheter obliteration of 113  
   transection of 134  
   with Budd-Chiari syndrome 16  
 Esophagitis  
   drug-induced 4, 29, 37  
   postoperative 148, 192, 238  
   radiation-induced 281  
   tube-induced 74  
 Esophagobronchial fistula 150  
 Esophagocutaneous fistula 138, 150, 154  
 Esophagojejunostomy 129  
 Esophagoplasty  
   by colon transplant 126, 141  
   by free intestinal graft 132  
   by gastric transplant 128, 132, 143  
   by jejunal transplant 129, 144  
   by skin flap 133, 148  
   indications for 126  
   radiographic evaluation of 123  
 Esophagopleural fistulas  
   after chest tube 74  
   after endoscopy 50  
   after hernia repair 150  
   after pneumonectomy 154  
 Esophagoscopy complications 45–50  
 Esophagus, complications  
   following barium tablets 92  
   following chest tube 74  
   following drug therapy 14, 29, 37  
   following endoscopy 45–51  
   following intubation 66–74, 158

- Esophagus, complications (*cont.*)
  - following surgery 123–163
  - following vagotomy 146
- Estrogens 25, 37
- Explosion, during colonoscopy 63
- External biliary fistulas 201

## F

- Falciform ligament 56
- Familial polyposis 216
- Fecal impaction, drug-induced 7–10
- Feeding tube complications 65, 158
- Femoral hernia 273
- Fiberoptic endoscopy. *See Endoscopy*
- Fibrotic peritonitis 37
- Fistula
  - aortocaval 228
  - aortoenteric 242
  - aortoesophageal 153
  - arteriovenous 83, 105, 109, 228, 231, 238
  - biliary 201
  - duodenal 201
  - enterovaginal 296
  - enterovesical 296
  - esophagobronchial 150
  - esophagocutaneous 138, 150, 154
  - esophagopleural 50, 74, 150, 154
  - gallbladder 201
  - gastrocolic 178, 189
  - gastrojejunal 188, 189, 226
  - paraprostatic enteric 242
  - radiation-induced 288, 296
  - retrovaginal 294, 296
  - tracheoesophageal 49, 72, 133, 137, 156, 158
  - vaginal 296
- Fluoroscopy, complications of 91
- Focal nodular hyperplasia of liver 25
- Foramen of Winslow 51, 256
- Fogarty balloon catheter 207
- Foreign body
  - barium-induced 124
  - postoperative granulomas 264
  - postoperative retained 264–267
- Fundoplication procedures 134, 146
  - gas-bloat syndrome after 177
  - recurrent hiatus hernia after 274

## G

- Gallbladder. *See also Biliary tract and Cholecystectomy*
  - complications of surgery 197–210, 249, 255
  - contrast media for 101
  - fistulas of 201
  - postoperative cholecystitis 224
  - remnant after surgery 209
  - stones in 37, 83, 106
- Gallium-67 scanning of abscess 255
- Gallstone. *See Cholelithiasis*

- Ganglionic blockers 7
- Gas-bloat syndrome 177
- Gastric atony 172
- Gastric complications
  - due to barium 92
  - due to drugs 1–3
  - due to endoscopy 51
  - due to radiation 284
  - due to surgery 165–196
- Gastric dilatation
  - after esophageal surgery 151
  - after obturator airway 158
  - drug-induced 93
  - postoperative atony 172
- Gastric diverticulum, postoperative 174
- Gastric hematoma
  - after endoscopy 51, 54
  - after surgery 247
- Gastric perforation
  - due to corticosteroids 3
  - due to gastroscopy 51
  - due to radiologic studies 92
- Gastric pouch
  - bezoar in 178
  - carcinoma of 192
  - diverticulum of 174
  - hematoma of 247
  - plication defect in 170
  - pseudotumor in 168
- Gastric pull-up operation 132
- Gastric stump carcinoma 192
- Gastric stump perforation 51, 75, 172
- Gastric surgery, complication of 165–196
  - abscess 225
  - bezoar 178
  - bleeding 235–242
  - diverticulum 174
  - dumping syndrome 191
  - gas-bloat syndrome 177
  - hematoma 247
  - malabsorption 178
