154, 166, 168, 232, 235, 237,
240
sampling with replacement 34,
39
sampling without replacement
29, 34, 40
- SAS v
- servicing factor 86
- Sheppard's corrections for group-
ing 157
- significance level 233
- significance of a signal 138–141,
178, 181, 182, 219, 233
- skewness 7, 8, 206–208
- Smirnov theorem 237
- Smirnov–Cramèr–Von Mises dis-
tribution (*see* distributions,
Smirnov–Cramèr–Von Mises
distribution)
- Smirnov–Cramèr–Von Mises
goodness of fit test 163,
232–235, 241
- spline functions 213, 215, 219
B-splines 215–220
complete splines 214
cubic B-splines 215, 216, 218,
220
cubic splines 213, 219
natural splines 213, 214
- standard deviation 7, 8, 19, 35,
65, 97, 114, 117, 120, 122,
138, 189, 190, 211, 212
- stochastic matrix 84
- straggling 112, 166, 167
- Student's distribution (*see* distri-
butions, Student's)
- sufficient statistic 128, 150, 151,
155, 208
- sum of squares 103, 147
- symmetric tails for confidence
intervals 123, 125, 131, 158
- T**
- telephone exchange 86
- Tikhonov regularization method
181
- total correlation coefficient 100
- traffic intensity 82, 83, 85
- two dimensional distribution
92–99, 105, 106
- two dimensional normal distribu-
tion (*see* distributions, two
dimensional no
- U**
- unbiased estimate 149
- uncorrelated 9, 93, 102, 106
- unfolding 213, 216, 219, 220
- uniform distribution 10, 51, 52
- unphysical region 124–126, 131,
144
- V**
- variance 7, 8, 10–12, 19–27, 36,
38, 46, 47, 49, 51, 55–57, 61,
63, 64, 76, 95, 97, 103–105,
107, 112–114, 116, 117, 120,
123, 127, 141, 142, 148,
149, 151, 154, 155, 165, 166,
168–170, 172–180, 190, 194,
197, 204–206, 209–211, 218,
223, 229, 233, 240
- Von Neumann, J. 69
- W**
- Wang's theorem 237
- weighted events 178
- weighted mean 142, 155
- weights 26, 69, 113, 142, 147, 155,
173, 174, 178–180, 218
- Wilcoxon, F. 240
- Y**
- Yost, G.P. 67, 114
