

# INDEX

- Achievement motivation. *See* Goal-directed behavior
- Affect, in sociometer/self-esteem system, 134–135
- Amotivated behavior, 36
- Anxiety  
and existential terror, 75–76  
and mortality salience manipulations, 130  
self-esteem as buffer against, 78–80, 126
- Beach, Steven R. H., 145
- Burger, Jerry M., 217
- Cantor, Nancy, 171
- Chi-Yue Chiu, 197
- Cognitive-experiential self-theory (CEST), 9–26, 238–239  
adaptive and maladaptive behavior in, 21–25  
compromise formation in, 16–18  
and four basic needs, 12–13, 22–23  
maintenance of negative self-views in, 23–25  
and psychodynamics, 13–14  
rational vs. experiential system in, 10–13, 18, 19–21  
and self-enhancing illusions, 23
- Deci, Edward L., 31
- Defensiveness, and stability of self-esteem, 80–81
- Desire for control, 217–231  
and Desirability of Control Scale, 218  
and high self-esteem, 222–226  
and low self-esteem, 226–230
- Downs, Deborah L., 123
- Dweck, Carol S., 197
- Epstein, Seymour, 9
- Evaluatively integrated self-knowledge (EI), 104, 105–108, 248–249
- Extrinsic motivation, 37–45  
regulatory processes in, 38–40  
and social context, 42–45
- Feedback  
controlling and noncontingent, 43, 57  
effect on high- vs. low-esteem people, 135
- Goal-directed behavior, 197–213  
and confidence level, 204–207  
intrinsic vs. extrinsic, 41–42  
and life transitions, 187–189  
life-task strategies in, 172–191  
and maintenance of self-confidence, 208–210  
mastery-oriented vs. helpless coping in, 204–205  
negative self-inferences from failure in, 201–204  
reassurance-seeking as, 176–187  
task appraisals in, 175–176  
and vulnerability of self system, 210–212
- Greenberg, Jeff, 73
- Greenier, Keegan D., 51
- Growth-oriented enrichment motives, 82–84, 251  
and defensive terror management motives, 73–74, 86–93

- Growth-oriented enrichment motives  
(*Cont.*)  
integration with defensive motives, 73–74, 84–94, 241–242
- Harlow, Robert E., 171
- High self-esteem  
and defensiveness, 80–81  
and self-esteem motives, 135–136  
and self-protective strategies, 61–64  
and self-enhancement strategies, 60–61  
and unstable self-esteem, 58–64
- Human agency  
autonomous vs. controlled activity in, 37, 42  
defined, 35  
and self-efficacy theory, 37
- Implicit theories of intelligence, 197–213  
assessment of, 198–201  
entity theorists vs. incremental theorists in, 198–207  
maintenance of self-confidence in, 208–210  
mastery-oriented vs. helpless coping in, 204–205  
negative self-inferences from failure in, 201–204  
self-confidence and failure correlation in, 206–207  
vulnerability of self system in, 210–212
- Information processing systems  
automatic nature of, 14  
rational versus experiential, 10–12, 13, 19–21
- Intrinsic motivation, 37–38, 40–45  
and self-determination, 43–44  
and social context, 42–45
- Leary, Mark R., 123
- Life transitions, and self-concept revision, 187–189
- Low self-esteem  
and self-esteem motives, 132, 135–136  
and unstable self-esteem, 64–67
- Morling, B., 9
- Mortality salience effects, 76–79, 130
- Motivation. *See* Goal-directed behavior; Extrinsic motivation; Intrinsic motivation
- Negative-compartmentalized self-knowledge (NC), 105, 248
- Positive feedback, and intrinsic motivation, 43
- Positive-compartmentalized self-knowledge (PC), 105, 248
- Pyszczynski, Tom, 73
- Reassurance-seeking behavior, 176–187
- Romantic attraction, and compromise formation, 16–18
- Ryan, Richard M., 31
- Self-concept revision, and life transitions, 187–89
- Self-determination  
and desire for control, 250–251  
extrinsic regulation in, 38–40  
motivated behaviors in, 36–38  
and positive feedback, 43  
and self-concept, 33–36  
and social context, 42–45
- Self-doubt, in achievement domain, 171–191, 245–246  
and defensive pessimism, 173, 177, 184  
and reassurance-seeking strategies, 176–187  
and self-at-task images, 175–176  
and task appraisals, 175–176
- Self-efficacy  
and autonomous vs. controlled activity, 37  
and intrinsic motivation, 43–44
- Self-enhancement vs. self-verification, 14–18
- Self-esteem  
domains of, 137–138  
explicit and implicit, measurement of, 19–21  
and motivation, intrinsic and extrinsic, 37–45  
measurement scales, 102  
as multifaceted construct, 242–244  
stable, 51–52, 113–114  
and support vs. control, 42–45
- Self-esteem, global  
evolutionary considerations, 127–128, 165–167, 251–252  
and self-evaluation maintenance processes, 146–147, 158–161, 164–167

- Self-esteem, state, 125, 131–132
- Self-esteem, trait, 124–125
- Self-esteem, true  
 vs. contingent, 32–33  
 and human agency, 37
- Self-esteem instability, 52–58  
 assessment of, 53–54  
 defined, 52–54  
 and early childhood experiences, 57–58  
 and ego involvement, 54–56  
 and high self-esteem, 58–64  
 and impoverished self-concepts, 56–57  
 and low self-esteem, 64–67  
 and noncontingent and/or controlling feedback, 57–58  
 and self-enhancement strategies, 60–61  
 and self-protection, 61–64
- Self-esteem motive, 123–140  
 and dominance, 127–128  
 and goal achievement, 126–127  
 of high- vs. low-self esteem people, 135–136  
 and inclusion facilitation, 133–134  
 and positive affect, 125–126  
 and social exclusion, 128–135  
 and state self-esteem, 125  
 threats and esteem-deflating events, 132–133
- Self-evaluation maintenance (SEM) model, in dyadic relationships, 145–168, 246–247  
 affective outcroppings in, 151–154  
 competency and performance issues, 159–160  
 and distribution of power, 155–156  
 and help-giving, 163–164  
 and jealousy and envy, 157–158  
 original model, reflection and comparison in, 147–148
- Self-evaluation maintenance (SEM) model  
 (*Cont.*)  
 and problem-solving, 156–157  
 and relationship dissolution, 162–164  
 and self-definition, 158–159, 160–161  
 and shared activities, 154–155
- Self-knowledge, evaluative organization of, 101–118  
 and affective states, 115  
 cognitive categorization in, 115  
 evaluative compartmentalization in, 104–105, 108–110  
 evaluative integration in, 104, 105–108  
 motivational perspective in, 116–117  
 and self-esteem stability, 113–114
- Self-verification vs. self-enhancement, 14–18
- Social exclusion, and self-esteem motivation, 128–134
- Sociometer model of self-esteem, 129–139, 244–245
- Solomon, Sheldon, 73
- Terror management theory, 73–82, 240–241  
 cultural anxiety buffer in, 76–80, 91–92  
 and cultural worldviews, 74–79  
 defensive orientation in, 76–82  
 dual-motive conceptualization in, 73–74, 84–94, 241–242  
 and growth-oriented enrichment motive, 82–84  
 mortality salience effect in, 76–79, 251
- Tesser, Abraham, 145
- Thematic Apperception Tests (TATs), 20
- Waschull, Stefanie B., 51
- Ying-Yi Hong, 197
