

# INDEX

## A

Affinity chromatography .....56  
 Alzheimer's disease (AD) .....154, 179, 190, 191  
 Amyotrophic lateral sclerosis (ALS).....191

## B

Bioinformatics .....129, 162, 164, 168, 172, 212  
 Blue native polyacrylamide gel electrophoresis  
 (BN-PAGE) ..... 86–88, 90–93  
 Brain.....1, 2, 4, 7–18, 22, 27, 28, 37–39, 43–47, 57, 58,  
 85–87, 89, 152–154, 161–174, 184, 190, 191, 199

## C

Cellomics.....199–213  
 Central nervous system (CNS)..... 1, 36, 162, 179, 180  
 Cluster analysis.....130, 187, 191, 211  
 Crosslinking .....95–101

## D

Data dependent acquisition (DDA) ..... 4, 44, 51, 71,  
 110, 111, 119, 120, 123, 129–133, 135, 136,  
 138–141, 171  
 Data independent acquisition (DIA)..... 4, 44, 51, 71,  
 119–126, 129–133, 135, 136, 138–141  
 Detergent-insoluble membrane.....24, 25  
 Disuccinimidyl sulfoxide (DSSO)..... 96–99, 101

## F

Filter-aided sample preparation (FASP) ..... 3, 44, 67–72  
 Fractionation .....2, 11, 21–40, 55–64, 87, 96,  
 105–108, 110, 111, 123, 132, 167, 170, 183, 189  
 Frozen tissue..... 7–18, 44, 184

## G

Guided free-hand dissection.....7

## H

High-content screening (HCS)..... 200, 201, 204, 205, 210  
 High-pH ..... 55–64, 106–108, 110, 111, 123  
 Hormones.....153, 161  
 Human brain .....1, 2, 45, 199

## I

Imaging mass spectrometry (IMS).....179–194  
 Immunohistochemistry (IHC) .....44, 52, 180, 183, 188, 190  
 Immunoprecipitation (IP) ..... 3, 85–96  
 Ion intensity quantification ..... 130, 131  
 IPSC derived neurons ..... 103–111, 201

## L

Laser microdissection (LMD).....2, 43–47  
 Limma ..... 130, 131, 139, 141, 151  
 Liquid chromatography (LC).....2, 4, 55, 56, 88, 97,  
 99–101, 104, 106, 119, 121, 124, 125, 129, 162,  
 163, 168–171, 189, 206

## M

Mass spectrometer/mass spectrometry (MS).....vii, 2, 4,  
 22, 44, 50, 51, 53, 55–57, 61, 67, 69, 83, 85–101,  
 103–111, 119–126, 129–141, 148, 152, 155, 162,  
 165, 167, 168, 171, 172, 179–194, 206  
 Matrix assisted laser desorption ionization  
 (MALDI) ..... 164, 168, 171, 172, 179–194  
 MaxQuant..... 88, 93, 125, 126, 130–133, 135, 141, 174  
 Micropipette-tip method.....82  
 Mouse.....2, 8–11, 14, 16, 22, 44, 45, 61, 63,  
 64, 121, 125, 154, 183, 201, 205, 208  
 MS<sup>3</sup> ..... 98, 101, 103–111, 114

## N

Nervous system..... 2, 95, 119  
 Neurodegeneration .....179  
 Neurons .....1, 2, 23, 24, 44, 95, 103–111, 121, 122,  
 126, 200, 201, 203–209, 211  
 Neuropeptides ..... 161–164, 182, 184, 185, 189–191  
 Neuropeptidome.....4

## O

Orbitrap lumos ..... 50, 99, 107, 111, 112

## P

Parkinson's disease (PD).....1, 110, 112, 113, 179, 189–191  
 Phosphopeptide..... 76, 80–82

Phosphoproteomics .....76  
 Phos-tag ..... 3, 75–83  
 Post-mortem tissue .....43–47  
 Postsynaptic density (PSD) .....21–40  
 Postsynaptic membrane raft (PSR).....24  
 Primary culture ..... 204, 211  
 Protein complexes..... 2, 3, 37, 40, 85–87,  
 97, 144  
 Protein-protein interaction..... 3, 24, 95–101, 130, 213  
 Proteomics .....vii, 1–4, 7, 9, 11, 43–47, 55–64, 67–72,  
 80, 87, 94, 95, 103–111, 119, 129–141, 143, 146,  
 152, 164, 167, 182–184, 199–213  
 PSD lattice .....21, 25, 28,  
 36, 37  
 Psychiatric disorders ..... 1, 199–213

**Q**

Quantitative proteomics .....1, 4, 44, 51, 55, 72, 80,  
 104, 105, 119, 129

**R**

Rats ..... 9, 11, 14, 16, 22, 23, 28–31,  
 153, 155, 191

**S**

Sample preparation.....vii, 3, 7, 44, 57, 58, 67–72, 77, 80,  
 104–106, 120–122, 126, 144, 145, 155, 162–164,  
 182, 184–186, 194  
 Sequential Window Acquisition of all Theoretical  
 fragment-ion-mass spectrometry  
 (SWATH-MS) ..... 119–126  
 Single cell ..... 2, 44, 68, 180, 181, 200  
 Single-pot solid-phase sample  
 preparation (SP3)..... 3, 44, 67–72  
 Spectronaut ..... 124, 126, 130–133, 135, 141, 211  
 Statistical analysis ..... 113, 151, 152, 187, 205, 208–211  
 Subcellular fractionation..... 11, 21–40, 96  
 Synapse..... 1, 2, 21–40, 95, 97, 153, 206, 209  
 Synaptic plasma membrane (SPM) .....21–40  
 Synaptosome ..... 3–4, 21–40, 68, 70, 71, 96, 99, 100  
 Synchronous precursor selection (SPS) ..... 105–107, 112

**T**

Tandem mass tags (TMT) ..... 4, 51, 97, 103–111  
 Two-dimensional chromatography.....55  
 Two-dimensional difference gel electrophoresis  
 (2D-DIGE)..... 143–155
