Acknowledgments

We would like to thank the staff of the University Architect / Planning Office who gave a variety of assistance, especially Laura Jones, Karin Moriarty, and Marcos Diaz Gonzalez. The staff of the Special Collections, Green Library answered many questions while guiding us through their extensive holdings. Cindy Kirby assisted us in the Office of Maps and Records; and Maggie Kimball, the University Archivist, provided special assistance in reviewing the final draft and providing expert critique. We also want to express our appreciation to our families and close friends who encouraged us in this endeavor of “caring and concern” for our campus.

Richard Joncas, David J. Neuman, and Paul V. Turner, 1999

With the publication of the second edition, I was able to correct a variety of errors and omissions in the first edition, and to add Part Eight to the *Campus Guide*, which incorporates all of the projects begun during President Emeritus Casper’s tenure and my time as University Architect at Stanford. In completing this update, I am especially grateful to my longtime friend and associate, Marlene Bumbera, who assisted me in this effort and had earlier been involved in the initial planning for what eventually became the *Campus Guide to Stanford University*.
