Index

A

- Artificial Neural Networks, 144
 - learning, 147
 - modern, 145
- Adaptive Text Summarization (ATS), 108
 - algorithm, 109
- Automated text generation, 131
 - origins, 132
 - template-Based, 131

B

- Backpropagation, 148
 - through time, 150
- Backpropagation Through Time (BPTT), 150
- Bayesian networks, 134
 - structure, 135
- Block printing, 13

C

- Casting, 13
- Change through technology, 36
- CIMAWA, 96
- Cinema, 33
- CMYK, 58
- Cognitive load theory, 56
- Collaborative filtering, 125
- Collocations, 95
- Color space, 58
- Computer Aided Journalism (CAJ), 34
- Conflict management, 71
 - pushing changes, 80
- Conflict resolution, 74
- Content based filtering, 127
- Content management, 43

- Content Management System (CMS), 43, 73
 - core, 45
 - data storage, 45
 - headless, 43
 - output-layer, 45
- Continuous deployment, 50
- Cooccurrents, 95
- CRIC, 83
- CSS, 52

D

- Data model, 49
- Distance measures, 128
- Document Type Definition (DTD), 47
- Dual coding theory, 55

E

- Editorial system, 43
- EOT handling, 69
- Episodic buffer, 55
- Erk König, 92
- Extensible Markup Language (XML), 47
 - and Typographie, 51
- Extraneous cognitive load, 56, 58

F

- Feature extraction, 66
- Film technology, 31
- F-measure, 119
- Forget-Gate, 153
- Free Association Test (FAT), 94

G

- Germane cognitive load, 57

Gradient descent, 148
 Grammar check, 26
 Graph, 53
 Grouping of texts, 87
 Gutenberg, 13

H

Handwriting, 8
 Hayes and Flower writing model, 5
 Headless CMS, 43
 Hidden Markov Model (HMM), 142
 Hieroglyphics, 6
 Homonyms, 87
 Hyphenation, 26

I

Image adjustment, 64
 Image focal points, 63
 Input-Gate, 153
 Intrinsic cognitive load, 56
 Inverse-Document-Frequency (IDF), 83

K

Knowledge, 37
 Knowledge Discovery from Text (KDT), 86
 Keyword, 83
 identification for “Brand” Recognition, 85

L

Latent Semantic Analysis (LSA), 99
 Latent Semantic Indexing (LSI), 99
 Letterpress printing, 14
 Libraries, 38
 Locking, 70
 pessimistic, 71
 semi-optimistic, 72
 Long Short-Term Memory (LSTM), 152
 Long Short-Term Memory Units, 144
 Long-term memory, 19

M

Markov chain, 139
 Media-neutral content, 46
 Media-neutral graphics, 67
 Media-neutral images, 58
 editing, 61
 semantics, 63
 Metadata, 66

MKR framework, 40
 Multimedia, 55
 and the writing process, 55
 content, 55
 Multi-topic detection, 114
 Mutual information, 135

N

n, 122
 Named Entity Recognition (NER), 97
 Natural Language Generation (NLG), 131

O

Ontology, 114
 Output-Gate, 153

P

Paradigmatic relations, 90
 example, 93
 Part of speech tagging, 115
 Phonological loop, 55
 Pictogram, 6
 Pictographic writings, 6
 Polymorphic content, 72
 for different media, 76
 Polymorphic Content Method (PCM), 73
 Polysemas, 87
 Portable Document Format (PDF), 67
 POS tagging, 115
 Precision, 119, 120

Q

QWERTY keyboard, 8

R

Recall, 119, 120
 problem, 124
 Recommender systems, 117
 and CAW, 118
 classification, 124
 collaborative filtering, 125
 content based filtering, 127
 hybrid methods, 128
 quality, 119
 Recurrent Neural Networks (RNN), 144, 149
 Research, 37
 RGB, 58

S

- Scalable Vector Graphics (SVG), 67
- Search for information
 - computer-assisted, 39
 - concept of, 38
 - for multimedia content, 66
 - multidimensional representation, 40
- Semantic relations, 85
 - between texts, 85
- Similarity measures, 128
- Simultaneous editing, 70
- Singular value decomposition, 102
- Split attention effect, 58
- Standard Generalized Markup Language (SGML), 47
- Stimulus word, 96
- Story telling, 58
- Syllable writing, 6
- Syntagmatic relations, 90
 - example, 92

T

- T9, 133
- Term-Frequency–Inverse-Document-Frequency (TF-IDF), 83
- Text summaries, 107
 - adaptive, 108
- Theatre, 31
- Topics, 88
- Two-phase commit, 69
- Typewriter, 8
- Typographic Markup Language (TML), 52, 67
- Typography transformation, 54

U

- Universal data model, 50

V

- Visuospatial sketchpad, 55

W

- Word associations, 88
 - asymmetry, 95
 - quality of machine-generated, 94
 - temporal aspects, 97
 - types, 93
- Word clouds, 87
- Word frequency, 85
- Word processing, 21
- Word processor, 10
 - capture, 23
 - correction, 26
 - input, 23
 - layout, 27
 - navigation, 24
 - wrapping, 25
- Working memory, 55
- Writing model by Hayes and Flower
 - planning, 19
 - reviewing, 20
 - translating, 19
- Writing rooms, 12
- Writing speed, 15
