

Index

A

- ARMA, 83–85, 87
- Autoregressive Conditional Heteroscedasticity (ARCH), 83–86, 90, 91, 99
- Autoregressive Distributed Lag Model (ARDL), 111, 113, 114, 116, 119, 120, 123

B

- Banking sector development, 111–114, 119–121, 123, 124
- Bank performance, 27–29, 32
- Banks, 173–178, 180, 181
- Beverage industry, 161, 162
- Bottom of the pyramid, the, 35, 47
- Bubble, 127–131, 134–141

C

- Capital structure, 51–62, 161–166, 169, 170
- Constraint, 35, 39, 47
- Corporate culture, 83–85, 99, 100
- Corporate legality, 83–85, 99, 101
- Credit growth, 11–15, 18–25
- Current account balance, 11–14

D

- Debt, 161–165, 169, 170

E

- Economic development, 35, 37–40, 47, 48
- Education, 35–45, 47, 48
- Emerging markets, 143–150, 156–158
- Eurasia, 27, 28

F

- Financial inclusion, 1–5, 7–9
- Fiscal sustainability, 65–68, 77, 79, 80

G

- Generalised Supremum ADF (GSADF), 127, 131, 133–136, 139, 140
- General Method of Moments (GMM), 51, 53, 57, 58, 62
- Global financial crisis, 173
- Global imbalances, 11–13
- GMM technique, 7, 9

I

- Inflation, 175, 176, 178, 181
- Interest rate volatility, 111–113

M

- Market contagion, 83–85, 87–90, 94, 99, 100
- Market efficiency, 143–150, 157
- Market timing, 51–55, 57–62
- Modified granger causality, 111

N

- Nigeria, 111–113, 119, 120, 123, 124
- Nonlinearity, 65–74, 76, 77, 79, 80, 155–157
- Nonlinear unit root tests, 143, 146, 152, 156

P

- Pakistan, 35, 37–41, 45, 47, 48
- Panel analysis, 9

Panel data, 15
Poor and marginalized population, 35, 41
Portfolio analysis, 83
Poverty, 36–38, 43, 44
Profitability, 161–163, 170, 173–176,
179–181

R

Rolling ADF (RADF), 127, 129, 131–134,
136–139, 141

S

Stock price, 127–129, 131, 132
Sup ADF, 127, 130, 135–137

T

Tax, 52, 53, 56, 57, 60–62
Turkey, 127, 128, 138, 140

U

Unit root tests, 65–74, 76–80
