

Index

A

Adequate alternative, 153, 155, 159
Administrative error, 74, 75
Affective component, 122, 123
Analysis, 4, 5, 8, 16, 21, 42, 54, 168, 179, 180, 185, 196, 197
Analyzing research design, 18
ANOVA, 199, 200
Applied research, 4
Associated errors, 119, 120
Association technique, 55
Assumptions of multiple regression, 195
Asymmetrical, 83
Attitude measurement, 121, 128
Attitudes and behaviour, 44, 123
Attitude scale, 127, 128
Audits, 32, 42
Autocorrelation, 195, 203
Availability of resources, 7, 8, 11

B

Balanced scale, 140
Barcode reader, 172
Bartlett test of sphericity, 221
Basic research, 4, 17
Behavioural component, 122, 123
Biased wording, 153, 155
Binary questions, 149, 151
Budget, 9, 17, 71
Business research, 18, 20, 27, 33, 70, 73, 82, 93, 107, 110, 164, 168

C

Causal, 21, 82
Central location telephonic interview, 68
Checklist questions, 151

Classification, 31, 33, 37, 38, 44, 58, 60, 167
Close ended questions, 52, 68
Cluster analysis, 229, 231, 232, 233, 234, 237, 238, 240
Coding, 20, 21, 121, 163, 167, 168, 170, 171, 173, 180
Coefficient, 116, 119, 196, 198, 200–205
Cognitive component, 122, 123
Comparative scales, 128–131
Completely automated telephonic interview, 69
Completely randomized design, 98
Completion technique, 55
Computer assisted telephonic interview, 68
Constant sum scale, 132
Construction technique, 56
Construct validity, 116–118
Consumer panels, 44
Content analysis, 80, 168, 170
Content validity, 117
Continuous scale, 133
Contrived observation, 79
Control group, 84, 88, 93, 95
Criteria for good measurement, 107, 114
Cross sectional and longitudinal, 61
Cross tabulation, 173, 174, 180

D

Data analysis, 15, 58, 153, 163, 167, 180, 262, 266
Data cleaning, 8, 10, 13, 20, 54, 57, 58, 115, 163, 172, 180
Data collection, 8, 10, 13, 20, 39, 57, 67, 163, 172, 263, 266
Data entry, 68, 75, 163, 168, 172
Data mining, 163, 176–180
Data mining process, 179
Data processing error, 75

Decision making process, 4, 5, 222
 Deliberate falsification, 60, 77
 Dependent variable, 83, 85, 94, 195, 196
 Depth interviews, 47, 49, 50, 53
 Descriptive, 27
 Determinant, 211, 215, 217, 221
 Developing hypothesis, 15
 Direct observation, 10, 78
 Discarding unsatisfactory response, 166

E

Editing, 20, 68, 163, 164, 166, 172, 180
 Eigenvalues, 217
 Error source, 121
 Evaluating data, 13, 14, 20, 21
 Examination of residual, 202
 Experimental analysis of variance, 86, 199
 Experimental design, 83, 85, 91, 96
 Experimental group, 84, 95, 99
 Experimental validity, 83
 Experiments, 18, 84, 86, 90, 97
 Exploratory factor, 207–226
 Exploratory research, 14, 16, 31, 46, 72
 Expressive technique, 56
 External validity, 86, 89, 91
 Extraneous variable, 83, 85, 90, 93, 95, 98

F

Face validity, 179
 Factor analysis, 179, 207, 209–211, 220, 248
 Factorial design, 100, 101
 Factors affecting business research, 7
 Field environment, 89, 90
 Focus group, 10, 41, 51, 185
 Forced choice, 141, 142
 Frame of reference, 153, 154

G

Generalizability, 114, 118
 Globalization, 3, 12

H

Hidden issue, 50
 Hierarchical cluster analysis, 232, 235, 237, 240

I

Independent variable, 195, 196, 198, 200
 Instrument associated errors, 120
 Instrumentation, 88, 96

Internal consistency, 115
 Internal validity, 86, 87, 90, 92, 96, 102
 Interval, 41, 42, 113, 114
 Interviewer error, 75

K

KMO, 211, 217, 221, 224, 227

L

Laboratory environment, 89, 90
 Laddering, 49
 Latin square design, 99, 100
 Likert scale, 137, 138
 Logistic curve, 246
 Logistic regression, 245, 248, 249, 252

M

Mail surveys, 70, 71, 73, 77
 Maturation, 46, 87, 92, 102
 Measurement of belief and situation, 126, 127
 Measurement scale, 112, 113
 Missing value, 166
 Model fit, 197
 Mortality, 89, 92, 93
 Multicollinearity, 203, 204
 Multi item scales, 121, 127, 134
 Multiple choice questions, 151, 167
 Multiple regressions, 195, 197, 202

N

Nominal, 112
 Non response error, 64, 76, 119

O

Observation techniques, 18
 One way frequency tabulation, 173
 Open ended interviews, 47, 49
 Optical scanning, 172
 Ordinal, 113, 114

P

Panels, 43, 46, 62, 70
 Panel surveys, 40, 43, 61, 70
 Physical trace measure, 80
 Pictorial scale, 132
 Population specific error, 75
 Post test, 92, 94, 95, 98
 Predictive ability, 200

Pre test, 94
 Principal component analysis, 199, 224, 225, 226
 Prioritization, 5
 Profile analysis, 139
 Projective technique, 54, 57

Q

Quasi experimental design, 41

R

Randomized block design, 98
 Random sampling, 71, 73
 Ranking questions, 149, 150
 Ratio, 114, 171, 200
 Reciprocal, 82
 Regression analysis, 82, 195, 197
 Relevance, 40, 79, 114, 119
 Reliability, 57, 60, 72, 114, 115, 119
 Research design, 13, 16, 19–22, 27, 74, 82, 87, 113, 118
 Research method, 10, 13, 17, 19, 22, 47, 58
 Research objectives, 15, 52, 61, 176
 Research report, 11, 20, 21, 37
 Respondent error, 74, 76, 119
 Response bias, 46, 60, 77, 119, 120
 Role of business research, 3

S

Sample frame error, 75
 Sample selection error, 74
 Sampling precision, 71
 Sampling procedure, 13, 19, 22, 66, 71, 74
 Scale categories, 141
 Scales, 107, 109, 111
 Scree plot, 217, 218, 224
 Secondary data, 11, 15, 18, 33, 38, 39
 Selection bias, 88, 93
 Self administered interviews, 69
 Semantic differential scale, 135–137, 139, 140
 Semi-structured interviews, 48, 51
 Sensitivity, 81, 114, 118
 Shared surveys, 41

Shared vocabulary, 153, 154, 159
 Simple cross tabulation, 174
 Situational errors, 120
 Social desirable bias, 78
 Sociometry, 57
 Staple scale, 136
 Static group design, 93
 Statistical design, 97
 Statistical regression, 88, 89, 93, 102
 Steps in research process, 13
 Surveys, 10, 17, 33, 40, 46, 49, 58, 61, 64, 66, 77, 82
 Symmetrical, 82
 Systematic error, 74, 86

T

Tabulation, 68, 121, 173, 174, 180
 Target respondents, 143, 144, 158
 Telephonic interviews, 40, 41, 66
 Testing, 4, 69, 72, 88, 94, 98, 115, 167
 Test of attitude scale, 137
 Test of homogeneity, 203
 Test of linearity, 202
 Test retest reliability, 115
 Thurstone scale, 139
 Time constraint, 64
 Time series design, 96
 True experimental design, 91, 93, 96, 97
 Types of attitude scale, 127, 128
 Types of scales, 128, 132

U

Unbalanced scale, 140
 Unconscious misrepresentation, 77
 Unforced choice, 141
 Unrotated factor solution, 217–219
 Unsatisfactory response, 166
 Unstructured interviews, 48

V

Validating, 163, 180
 Validity, 16, 72, 86, 87, 89, 90, 114, 117, 119
 Voice recognition, 172
