

# Index

## A

- Adaptive
  - adaptation gain matrix, 129
  - parameter convergence, 140, 149
  - parameter estimation, 128
  - parameter update law, 128
- Affine, 2, 67
- ATDRP, 317
- Augmented system, 221, 222

## B

- Barbalat's Lemma, 22

## C

- Center Manifold Theorem, 340
- Certainty equivalence principle, 129
- Changing supply function, 36
- Class  $\mathcal{KL}$ , 16
- Class  $\mathcal{K}$ , 16
- Class  $\mathcal{K}_\infty$ , 16
- Companion matrix, 209
- Compensator, 3
- Control system, 2

## D

- Diffeomorphism, 71, 216
- Direction cosine matrix, 313
- Dynamic high gain, 157

## E

- Equilibrium point, 15, 20
- Existence and uniqueness, 339
- Exosystem, 198

## F

- Feedback
  - dynamic feedback, 3, 129
  - output feedback, 3
  - state feedback, 3
  - static feedback, 3, 91
- Frobenius Theorem, 74, 339

## G

- Gain function, 31
- GARP, 130
- GASP, 130
- Gradient, 67
- GRORP, 200
- GRSP, 91

## H

- High gain, 109
- High gain observer, 230

## I

- iISS, 61
- iISS Lyapunov function, 61
- Immersion
  - generalized linear immersion, 212
  - linear immersion, 206
  - nonlinear immersion, 210
- Input–output linearization, 71
- Input-to-state stability, 30
- Internal model, 223
- Internal model candidate, 216
- Inverse dynamics, 76
- Inverse function theorem, 72
- ISS-Lyapunov function, 32

**J**

Jacobian matrix, 18

**L**

LaSalle-Yoshizawa Theorem, 23  
 Lie derivative, 68  
 Linear parameterization, 128  
 Lyapunov function, 19  
 Lyapunov's direct theorem, 18, 22  
 Lyapunov's linearization theorem, 18

**M**

Minimum phase, 77

**N**

Nonlinear system  
   autonomous, 1  
   initial state, 1  
   initial time, 1  
   non-autonomous, 1  
   time-invariant, 1  
   time-varying, 1  
   uncertain, 20  
 Normal form, 73  
 Nussbaum function, 179

**O**

Output stabilizing control law, 71  
 Output zeroing manifold, 77, 203

**P**

Parameterized changing supply function,  
   165  
 Parameterized class  $\mathcal{K}_\infty$ , 165  
 Persistent exciting, 24

**Q**

Quaternion, 314

**R**

Reference frame  
   body, 313  
   inertial, 313  
 Regulator equations, 201  
 Relative degree, 69  
 Robust input-to-state stability, 31  
 Robust stability, 20  
 RORP, 199

**S**

$\mathcal{SN}$  function, 343  
 Self-tuning adaptive control, 50  
 Small gain theorem, 57  
 Stability, 16  
 State space representation, 1  
 Steady-state generator, 205  
 Storage function, 36  
 Supply function, 36  
 Supply pair, 36  
 Sylvester equation, 204, 217

**T**

Tuning functions, 130

**U**

Uncertainty  
   dynamic, 78  
   static, 78  
 Universal adaptive control, 50

**Z**

Zero dynamics, 77  
 Zeroing polynomial, 209
