

Index

A

Absheron gravity polygon, 249
Absheron peninsula, 222, 238, 313, 318
Absheron ridge, 204, 208
Abyssal thermal flow, 51
Accretional prism, 201
Accretionary wedge, 205
Aeromagnetic anomalies, 302
African plate, 226, 230
Afterslip, 236
Aghdara district, 252
Agzibir, 319
Ajinohur Lake, 12
Akchagyl, 15, 49, 125, 212, 316, 329
Alinjachay river, 6
Alpine-Himalayan orogenic belt, 201
Ambient temperature, 316
Analytical continuation, 134, 147, 156
Anatolian plate, 129
Ancient magnetic field, 110
Ancient magnetic poles, 112
Ancient magnetization, 113
Annual temperature variations, 305
Anomalous geomagnetic variations, 249
Anticlockwise rotating, 133
Anticlockwise turning, 113
Apparent polarizability, 287
Arabia–Eurasia collision, 224
Arabia–Eurasia convergence, 232
Arabian plate, 129, 228, 230
Araz river, 1, 10, 13
Arbitrary triaxial ellipsoid, 109
Archaeological-Geophysical DB, 330
Areal autocorrelation analysis, 141
Arpachay river, 8, 83, 101
Astara, 20, 70, 247
Astarachay river, 9
Asthenosphere, 150, 182
Ayranteken, 319
Azerbaijan tectonic regionin, 164
Azeri oil deposit, 55, 271

B

Badamly mineral spring, 20, 21
Bakhar oil deposit, 45, 48, 54, 273, 275
Baku archipelago, 26, 117, 179, 208, 276
Baku trough, 15, 55

Balaxhan floor, 112
Bandygel lake, 13
Bashkarvand, 117, 265
Bazarchay river, 5
Bazardyuzyu, 2, 288
Beilagan, 117, 262, 265
Belakan-Zagatala ore field, 157, 158
 β -factor, 204, 208, 276
Beyuk-Kasik, 195
Beyukkishlak, 123, 160
Beyuk-Shor lake, 15
Bibi-Heybat, 55, 60, 179, 248
Blasthole, 290
Borsunly, 34, 117, 265
Bottom gravimetric data, 275
Bouguer gravity, 129, 141, 160, 204, 295, 318
Bozdagh, 318, 322
Bulla deniz oil deposit, 45, 49, 56, 179, 273
Burris gravity meter, 242
Byandovan, 260, 319

C

Caspian Sea level, 201, 247, 325
Catastrophic earthquake, 219, 232
Caucasian lithosphere, 131
Caucasian mine spoils, 309
Central Azerbaijan, 186, 263, 313
Central Caspian seismic zone, 224, 233, 237
Central ray method, 306
Chakh-Chakh, 195
Characteristic earthquakes, 236
Chardakhly deposit, 301
Chargeability, 328
Cheleken-Livanov high, 275
Chiragidzor deposit, 7, 293, 305
Chovdar deposit, 294
Climate of the past, 326
Cobalt, 68, 70, 73, 76, 79, 80, 84
Coefficients of transmissibility, 6
Combinations of variables, 188
Compression waves, 328
Comushly, 117, 265
Consolidated crust, 178, 184
Consolidated sediments, 235, 238
Contact method of polarization curves, 290
Continental convergence, 129
Continental crust, 200, 205, 208, 238

Copper, 98, 101, 282, 287, 290, 294
 Crystalline basement, 146, 185, 210, 260
 Curie discontinuity, 156
 Curie surface, 193, 262

D

Dagestan, 287
 Daghliq Garabagh, 71, 113, 293, 295, 301
 Dalidagh intrusive massif, 199
 Darwin uplift, 55
 Dashkesan, 195
 Dashkesan iron deposit, 66, 80, 115, 295
 Dashkesanite, 68
 Dashkesan mining district, 297
 Decompaction, 199, 249, 318
 Deep erosional truncation, 281
 Deep seismic sounding, 172, 205, 275
 Deep tectonic signatures, 261
 ΔT gradients, 297
 Demagnetization, 110
 Diapir, 49
 Difference field $\Delta g_{B(8-20)}$, 141
 Differential magnetic function, 249
 Different intermediate layer densities, 113
 Digital terrain relief model, 285
 DInSAR, 323
 Djulfa, 94, 193
 Dowsing, 330
 Duvanny, 37, 319
 Dzegamchay river, 7

E

Earth degassing, 324
 Earth's crust, 146, 171, 185, 193
 Eastern Absheron, 14, 16, 19, 55, 56
 Eastern Azerbaijan, 131, 210, 224, 268
 Eastern Caucasus, 238
 Eastern Paratethys, 26, 210
 Electric power systems, 326
 Electric resistivity, 113, 264, 315, 318
 Electromagnetic radiation, 326
 Emanation survey, 302
 Endogenic mineralization, 158, 281
 Energetic class, 222
 Enikend dam, 313
 Epi-Hercynian platform, 269
 Eurasian continent, 113, 133
 Eurasian plate, 219, 226, 230
 Eutectic reaction, 263
 Evlakh-Agjabedi zone, 25, 157, 177, 185

F

Ferromagnetic minerals, 318
 Filizchay deposit, 71, 282, 283, 291
 Finite difference method, 150, 175
 Fisher-Snedecor criterion, 247
 Fluxgate magnetometer, 318
 Four-color problem, 187

G

Gabbroids, 68, 85, 92, 297

Gallium, 68
 Gamma field, 264
 Gamma-radioactivity, 318
 Gamma ray log, 282
 Ganja, 25, 29, 34, 61, 66, 137, 148, 219
 Ganja magnetic maximum, 191
 Gara-Heybat, 55
 Garasu, 57, 212, 319
 Gazagh-Ganja Massif, 329
 Gazanbulagh, 22, 30, 42, 52, 265
 Gedabey, 301, 309
 Gedabey mining district, 110, 114
 Generalized paleomagnetic scale, 112
 Geodynamic activity, 182
 Geodynamic events, 253
 Geodynamic precursor, 253
 Geoelectric section, 315, 329
 Geofluid pressure, 49
 Geomagnetic activity, 325
 Geomagnetic polarity time scale, 212
 Geomagnetic storms, 315, 326
 Geomorphological features, 14, 80, 157, 271
 Georgia, 193, 287
 Geothermal gradients, 182, 263, 301
 Gindarch, 117, 265
 GirDYmanchay river, 12
 Gobustan, 26, 71, 146
 Gold, 73, 84, 87, 94, 98, 113, 295
 Gold-pyrite deposit, 300
 Goyarch, 265
 Goygel, 88
 Goygel earthquake, 219
 Goygel uplift, 101
 GPS satellites, 229
 GPS station, 231
 Gravimetric measurement grouping method, 113
 Gravity field regioning, 165
 Greater Caucasus, 1, 10, 26, 35, 71, 83, 101, 113, 122, 129, 139, 150, 156, 182, 190, 196, 211, 222, 249, 282, 287, 299, 306, 313, 328
 Greater Caucasus immersion, 193
 Groundwater protection, 328
 GSFC program, 187, 283, 295
 Guba-Khachmaz zone, 157
 Gum isle, 313
 Gusar, 10, 195
 Gusar-Devechi, 17, 206, 219, 271
 Gushkhana, 59, 318
 Gutenberg-Richter law, 220
 Guton magnetic anomaly, 156, 190
 Gyuneshli oil deposit, 52
 Gyuneshli oil field, 55
 Gyz Galasy, 330
 Gyzybulagh deposit, 114, 293, 295, 300

H

Hamamdagh, 56, 319
 Hartley transform, 141, 147, 148
 Heat flow, 132, 204, 212, 265, 316
 Heavy oil, 37, 53
 Hidden crossings of structures, 298
 Histogram of earthquake occurrences, 225
 Horizontal geothermal gradient, 132
 Horizontal gradients of magnetic field, 250
 Horizontal gravity gradient, 131, 160, 162

Human health, 325
 Hurst exponent, 243
 Hydrocarbon fluids, 40, 264
 Hydrocarbon gases, 41
 Hydrostatic pressure, 20, 47, 114
 Hydroxides, 318

I

Ilandagh Mt., 6
 Imishly, 117, 265
 Inclined plane, 136, 155
 Incomplete topographic correction, 297
 Indicators of faults, 120
 Indicator space, 120, 151, 308
 Indium, 68, 73
 Induced magnetization, 109
 Integrated interpretation, 120, 187, 271, 308
 Intensive magnetic maxima, 164
 International terrestrial reference frame, 230
 Inverse magnetization, 112, 126
 Iory-Agrichai zone, 157
 Iron, 7, 29, 66, 69, 282, 299
 Iron age fortress, 330
 Iron oxide magnetite, 212
 Iron oxides, 318
 Iron suboxide, 262
 Isobutane, 42
 Isostatic anomaly, 208
 Istisu, 9, 193
 Istisu mineral spring, 22, 82

J

Jalilabad, 195
 Jarly, 26, 263, 265
 Jeiranbatan reservoir, 14
 Jeirankechmez depression, 3, 26, 28, 55, 62, 112
 Jigalybek oil deposit, 275
 Jjikhil deposit, 283

K

Kara-Bogaz, 149, 270
 Karadagh deposit, 282, 298
 Karajaly, 34, 117, 265
 Katekh deposit, 71, 76, 285, 286, 290
 Katsdagh deposit, 71, 73, 83, 283, 288, 290, 301, 305–307
 Katzmala deposit, 287
 Kelbadzhar-Dalidagh gravity minimum, 199
 Khachinchay, 7, 85, 87
 Khankendi, 7, 149
 Khara-Zire oil deposit, 56
 Kinematics, 219
 Kolmogorov criterion, 137
 Kopetdagh, 40, 206, 211
 Kosmalyan series, 109
 Krasnovodsk (Caspian) earthquake, 219
 Kur-Araz Lowland, 1
 Kurdamir-Saatly zone, 177
 Kur Depression, 123, 137, 326, 329
 Kur-Gabyrry interfluve, 34, 38, 53, 60
 Kurgan, 330
 Kur mega-sinclinorium, 122, 137

Kur river, 10, 13, 25
 Kutkashen, 195, 252
 Kyapaz Mt., 7
 Kyurovdagh, 44, 116, 265

L

Lagich, 195
 Lake Karagel, 195
 Land of flames, 41
 Landsat, 131, 265, 324
 Laplace operator, 253
 Large earthquakes, 224, 236
 Large gravity maximum, 210
 Large hidden deposits, 281
 Lead, 85, 87, 90, 94, 98, 102, 285
 Lengebiz ridge, 3, 29
 Length of lineaments, 131
 Lerik, 9, 20, 195
 Lesser Caucasian plate, 113
 Lesser Caucasus, 1, 19, 35, 70, 93, 110, 113, 123, 148, 182, 189, 193, 223, 252, 293, 299, 329
 Levchay river, 92
 Lineaments, 129
 Lithospheric modeling, 205
 Lithospheric heterogeneity, 131
 Lithostatic pressure, 47
 Local gravity maxima, 260
 Local magnetic anomalies, 161, 164, 275
 Lokbatan, 15, 318
 Lok-Garabagh zone, 71, 79, 87, 110, 293
 Longitudinal conductance, 183
 Lower Kur Depression, 112, 116, 148, 250
 Low-pass filtering, 145
 Lyaky, 117, 265

M

Maghemite, 266, 297
 Magma chambers, 182
 Magnetic field mapping, 165
 Magnetic gradient, 162, 330
 Magnetic–seismological relations, 249
 Magnetic susceptibility, 318
 Magnetite, 72, 89, 115, 297
 Magnetite skarn, 66, 68, 80
 Magnetotelluric measurements, 182
 Magnetotelluric sounding, 173, 275
 Magneto-variational monitoring, 326
 Maiden Tower, 330
 Main Caucasian ridge, 79
 Main Caucasus thrust, 129
 Makarov Bank, 318
 Masally, 184, 195
 Masazyr lake, 14
 Maximal possible magnitudes, 227
 Maykop suite, 3, 9, 30, 41, 53, 101, 274
 Median method, 141
 Mediterranean tectonic belt, 219
 Mekhmana, 158
 Mesozoic paleomagnetic sections, 112
 Methane, 18, 42, 64, 261
 Micrometer nonlinearity, 247
 Microtremor survey, 249

Middle Kur Depression, 117, 161
 Mingehevur water reservoir, 326
 Modern geomagnetic field, 110
 Moho discontinuity, 149, 179, 185, 191, 201
 Moho uplift, 199
 Molybdenum, 10, 89, 94, 98
 Mountainous Talysh, 125
 Mrovdagh ridge, 7
 Mud volcanic breccia, 125
 Mud volcanism, 19, 49
 Mud volcanoes, 35, 51, 204, 214, 233, 265, 315, 321
 Multi-directional fractures, 326
 Multifocusing technology, 306
 Muradkhanly, 65
 Muradkhanly oil deposit, 262, 263, 269

N

Naftalan, 30, 52
