

# Index

## A

- Ability to develop, 118–123
- Acceptance
  - and affirmation, 276, 291
  - feelings, 281
- Action-oriented framework, 239
- Adaptive leaders, 35
- Adrenocorticotrophic hormone (ACTH), 32
- Affirmation, 281, 286, 289, 291, 296
- Allostatic leaders, 38, 42–45
  - adaptive leaders, 35
  - challenges, 36
  - conceptual framework, 37
  - EI (*see* Emotional intelligence (EI))
  - FourCe-PITO conceptual framework, 37, 38
  - physical and psychological well-being, 36
  - psychobiosocial framework, 45
  - social intelligence, 38–41, 45
  - stress management and coping techniques,
    - burnout
      - awareness, 43
      - beliefs/appraisals, 43
      - dominant responses, 45
      - eating, 42
      - exercise, 42
      - sleep, 42, 43
      - social support, 44
      - spirituality, 43
- Annals of Theoretical Psychology*, 16
- Appreciative inquiry, 288
- Armed Services Vocational Aptitude Battery (ASVAB), 60
- Aspiration, 195–198

- Assessment center (AC)
  - behavioral classification, 260, 261
  - culture, 255–257
  - diagnostic method, 253
  - evaluation, 264–267
  - functional positions, 251
  - history, 254, 255
  - job-relevant behavior, 259
  - leader development, 252, 253
  - leading position, 251
  - organization, 264
  - positions, 252
  - purpose, 257, 258
  - realistic exercises, 261, 262
  - social situations, 263
  - strength-weakness profile, 264
- Authority, 166, 167

## B

- Bandura's concept, 14
- Behavioral classification, 153, 260, 261
- Bottom-up approach, 6
- Broader curriculum and institution, 317, 318
- Building capacity for leading, 240, 241

## C

- Capitalization, 286–289
- Center for creative leadership (CCL), 7
- Civil service, 327
- Cognitive complexity, 211, 214, 215
- Commonwealth of Massachusetts, 327
- Conceptual framework, 223, 304–309

- Conflict management
  - applications, 172
  - authority, 166, 167
  - challenges, 163
  - dependence and relative power, 179–180
  - disagreements, 171
  - fairness-promotion activities, 168, 169, 181–183
  - identity- or value-based incompatibilities, 164
  - influential factors, 164
  - integrative view, 178, 179
  - interpersonal needs, 163
  - leader development initiatives, 177, 178
  - leader-employee conflicts, 164
  - leaders' efforts, 172
  - legitimacy, 166, 167
  - multiple responses, 169–171
  - organizational controls, 165, 166
  - perspective, 171
  - trust-building activities, 167, 168, 181–183
- Contrastive perspective, 219, 220
- Corticotrophin-releasing hormone (CRH), 32
- Cortisol, 32
- Counterproductive work behavior (CWB), 81, 82
- Courage, 104–107, 111, 112
- Creative problem-solving, 195, 207
- Creativity
  - ethical leaders, 189–191, 201–207
  - practical wisdom, 192–195
  - skill, 192–195
  - virtue, 195–198
- Culture, 223, 255–257
  
- D**
- Dark triad
  - anti-heroes, 76
  - conceptualizations, 77
  - “evil” core, 79
  - evolutionary theory, 80
  - leader development, 89–91
  - leadership behavior, 75, 83–88
  - mid- to long-term time range, 78
  - narcissists, 76, 77
  - personality, 76–79
  - psychogenic motives and values, 80, 81
  - selfish goals, 76
  - transformational and charismatic leadership, 75
  - at work, 81, 82
- Decision-making processes, 225, 226
- Department of Defense (DoD), 302
- Design thinking, 206, 207
- Diagnostic method, 253, 265
- Dialectic behavioral therapy (DBT), 40
- Dialogue, 109
  - communication styles, 109
  - courage, 109, 111, 112
  - HCBT, 110
  - leadership, 110, 111
  - representative behavior, 109
- Discourse-in-action, 226
- Dishonesty, 200, 201, 204
  
- E**
- Emotional intelligence (EI), 38
  - allostatic leader, 39
  - awareness level, 38
  - behavioral responses, 41
  - cognitive, 41
  - control emotional, 41
  - DBT principles, 40
  - regulating emotions, 39
  - relationship management, 38
  - stress effect, 39
  - self-awareness, 38, 40
  - self-management, 38, 39
  - social awareness, 38
  - subsequent situation (*E*), 41
- Empathy, 192, 206
- Empirical research, 199
- Epistemic cognition, 244
  - adulthood, 215
  - culture, 223
  - disciplinary processes, 214
  - dynamic process, 209, 210
  - ethnographic perspective, 219–221
  - holding environment, 215
  - instructional designs, 214
  - instructional processes, 215
  - knowing how, 222
  - knowing that, 222
  - layers, 225
  - leadership, 210
  - learning and training, 211, 224, 225
  - mind preparation, 228–231
  - non-commissioned officer/analyst, 210
  - predefined technical solution, 209
  - (re)formulating, 216, 217
  - repertoires of action, 211
  - self-to-collective relationships, 216
  - social constructionism, 217, 218
  - technical problems, 214
  - transformation, 215
  - US public school systems, 214
  - USMA definition, 215

- Essential elements, 64  
 Ethical leaders, 189–191, 200–207  
 Ethnocentrism, 223, 224  
 Ethnographic perspective, 219–221
- F**  
 Faculty, 318, 319  
 Fairness-promotion activities, 15, 168, 169  
 Field theory  
   algebraic and geometric topology, 28  
   conceptual and mathematical complexity, 28
