

Subject Index

A

abdominal closure 107
abscess 47
acini 9, 10
acromion 12
adjuvant chemotherapy 83
advanced breast biopsy instrument (ABBI) 30
advancement flap 75
afferent lymphatics 81
arcuate line 16
artery
– axillary 11, 14
– brachial 14
– circumflex scapular 14
– epigastric 15
– external iliac 15, 16, 102
– inferior epigastric 15, 16, 102
– intercostal 11
– internal mammary 11, 15, 16, 102
– internal thoracic 15, 16
– lateral thoracic 11, 14
– serratus collateral 14
– subscapular 14
– superior epigastric 16, 101
– thoracodorsal 12, 14, 97
augmentation mammoplasty 126, 127
axilla 61
– levels I–III 79
axillary
– artery 11, 14
– dissection 80
– fold 126
– lymph node 57
– vein 12, 78, 79

B

Bardenheuer incision 55
Betadine 22, 83
biopsy cavity 81
bipedicle flap 107
bloody nipple 45
– discharge 37
blue dye 37, 81
Bostwick, John 5
brachial artery 14
breast
– biopsy
– – excision biopsy 28, 30, 55
– – needle-localized 30, 33

– – open biopsy 30
– – stereotactic 22
– – vacuum-assisted 24, 28, 30
– cyst 20, 43
– lift 68, 74, 122
– parenchyma 81
– reconstruction
– – delayed 85
– – immediate 85
breast-conserving surgery 57, 62
bulb suction 86
butterfly syringe 37

C

Cameco syringe pistol 20
capsular contraction 93
carcinoma 10
cephalic vein 83
circumflex scapular artery 14
clavipectoral fascia 78
collecting duct 10
colored ink 60
core needle biopsy 22
cutaneous intercostobrachial nerve 12
cyst 10
cytology 43

D

Delay 99
delayed breast reconstruction 85
deltoid muscle 13
delto-pectoral groove 83
Doppler localization 103
double-lumen catheter 83
duct
– collecting 10
– ectasia 10
– lacrimal 47, 48
– lactiferous 37
– segmental 10
– terminal 10
ductal carcinoma in situ (DCIS) 19, 28
ductal-lobular system 10
ductectomy 38
ductoscopy 40

E

electrocautery 59
epigastric artery 15
estrogen 8
excision biopsy 28, 30, 55
expander 85, 91
external
– iliac artery 15, 16, 102
– oblique muscle 15, 16
extra-intra lobule 10

F

fat necrosis 10
fibroadenoma 10, 46
fibroblast 93
– contractile 93
– specialized 93
fine needle aspiration (FNA) 19, 20
Fisher, Bernard 4

G

galactography 45
Galen 1
gamma probe 81
gynecomastia 50

H

Halsted, William 2, 57
Hippocrates 1
Hunter, John 2

I

immediate breast reconstruction 85
incision
– Bardenheuer 55
– periareolar 47, 48
– radial 56
– round block 50
– Stewart 57
– W 50
inferior
– epigastric artery 15, 16, 102
– gluteus maximus muscle cutaneous flap 103

- pedicle technique 117, 118
- inframammary fold 47, 68, 126
- intercostal
 - artery 11
 - nerve 13
 - space 83
- intercostobrachial nerve 12, 80
- interlobular connective tissue 9
- internal
 - mammary artery 11, 15, 16, 102
 - mammary node 83
 - oblique muscle 16
 - thoracic artery 15, 16
- intraductal papilloma 45
- intraalobular
 - connective tissue 9
 - duct 9
- intravenous chemotherapy 83
- inverted nipple 129
- isosulfan blue 81

J

Jackson-Pratt drain 50

L

lacrimal duct probe 47, 48
 lactiferous duct 37
 Langer lines 7, 55
 lateral

- pectoral nerve 12
- thoracic artery 11, 14
- thoracic vein 13

 latissimus dorsi

- flap 85, 96, 99
- muscle 12–14, 78, 79

 LeDran 1
 Lejour technique 115, 116
 linea alba 15
 liposuction 51, 52
 lobule 10
 local recurrence 57, 111
 long thoracic nerve 12, 78, 80
 lumpectomy 55, 57, 67
 lymphatic mapping agent 81
 Lymphazurin 81
 lymphoscintigram 83

M

mammary

- ductoscopy 40
- fold 86

 mastopexy 122
 McWhirter 3
 medial pectoral nerve 12
 mediport 83
 mesh 94
 metastases 83
 microductectomy 37
 milk line 8
 modified radical mastectomy 57

muscle

- deltoid 13
- external oblique 15, 16
- internal oblique 16
- latissimus dorsi 12–14, 78, 79
- pectoralis 57
 - – major 11, 12, 79, 80
 - – minor 11, 78, 79
- rectus abdominis 15, 16
- serratus anterior 12, 79, 86
- subcapsularis 12
- teres major 13
- transverse rectus abdominis (TRAM) 15
- trapezius 13

 muscular pocket 86
 myofibroblast 93

N

needle-localized biopsy 30, 33
 nerve

- intercostal 13
- intercostobrachial 80
 - – cutaneous 12
 - lateral pectoral 12
- long thoracic 12, 78, 80
- medial pectoral 12
- thoracodorsal 12, 13, 80

 nipple 10

- adenoma 10
- plasty 129

 nipple-areola complex 67

O

omental flap 112
 open biopsy 30

P

Paget's disease 10
 papilloma 10, 41

- intraductal 45

 patent blue dye 81
 Patey mastectomy, see also modified radical mastectomy 62, 85
 pectoralis muscle 57

- major 11, 12, 79, 80
- minor 11, 78, 79

 Penrose drain 47
 periareolar

- fold 126
- incision 33, 47, 48

 peritumoral injection 81
 Petit, Jean Louis 1
 povidone-iodine 22
 preoperative systemic therapy (PST) 68
 prepectoral implant 127
 primary tumor 67
 progesteron 8
 prolactin-secreting tumor 39

prophylaxis 67
 prosthesis 85, 86
 pseudoptosis 121
 ptosis 121

Q

quadrant 61
 quadrantectomy 57, 67, 68

R

radial incision 56
 radical mastectomy 57
 radioactive colloid 81
 radiocolloid 81
 radiotherapy 57, 60, 112
 random portion 102
 randomized prospective trial 57, 83
 rectus

- abdominis muscle 15, 16
- sheath 16

 reduction mammoplasty 113, 114, 117, 119
 Regnault 121
 Rietjens 94
 Rotter's nodes 12
 round block technique 50, 71, 119, 122

S

salvage mastectomy, see also simple mastectomy 67
 scapula 13
 segmental

- duct 10
- excision 57, 67

 semi-absorbable mesh 122
 sentinel

- lymph node biopsy 81
- node 81

 serratus

- anterior muscle 12, 79, 86
- collateral artery 14

 simple mastectomy 62, 67
 single-lumen catheter 83
 skate flap 109
 skin

- flap 61
- paddle 68, 96

 skin-sparing mastectomy 57
 stereotactic breast biopsy 22
 sternum 85
 Stewart incision 57
 subareolar

- abscess 48
- dissection 39

 subcapsularis muscle 12
 subclavian vein 84
 subcutaneous

- mastectomy 53
- port 91

 subpectoral implant 127

subscapular artery 14
superior
– epigastric artery 16, 101
– gluteus maximus muscle cutaneous flap 103
surface anatomy 7
suspension technique 86, 87, 94

T

tattoo 109
99m Tc
– albumin colloid 81
– antimony trisulfide colloid 81
– sulfur colloid 81
teres major muscle 13
terminal duct 10
thoracodorsal
– artery 12, 14, 97
– nerve 12, 13, 80
– vein 12

thoracoepigastric
– cutaneous flap 111
– vein 12, 13
Thorek technique 117, 118
transverse rectus abdominus muscle (TRAM) 15
– flap 15, 85, 101
trapezius muscle 13
tunneling 67

U

ultrasound 20, 43
ultrasound-guided biopsy 22
umbilical closure 107
umbilicus 102

V

vacuum-assisted
– breast biopsy 24, 28, 30
– percutaneous biopsy device 25
venous access
– catheter 83
– port 83
Veronesi, Umberto 4
vertical scat technique (Lejour) 115
Vicryl mesh 122
Virchow, Rudolf 2

W

W incision 50
wide excision 55
winged scapula 13
