B. Volmert

POLYMER CHEMISTRY

Translated from the German by E. H. Immergut,
New York

With 630 figures. XVII, 652 pages. 1973

Cloth DM 72,-; US \$29.60

ISBN 3-540-05631-9

Prices are subject to change without notice

This book gives a comprehensive coverage of the synthesis of polymers and their reactions, structure, and properties. The treatment of the reactions used in the preparation of macromolecules and in their transformation into cross-linked materials is particularly detailed and complete. The book also gives an up-to-date presentation of other important topics, such as enzymatic and protein synthesis, solution properties of macromolecules, polymer crystallization, and properties of polymers in the solid state.

The content and presentation of Professor Vollmert's book is more encompassing than most existing treatises, and its numerous figures and tables convey a wealth of data, never, however, at the expense of intellectual clarity or educational value.

The presentation is mainly on a fundamental and general level and yet the reader—student or professional—is gradually and almost casually introduced to all important natural and synthetic polymers. Complicated phenomena are explained with the aid of the simplest available examples and models in order to ensure complete understanding. However, the reader is also encouraged to think for himself and even to criticize the author's point of view.

All of the chapters have been revised and enlarged from the German edition, and many of the sections are entirely new.

Contents

Introduction. — Structural Principles. — Synthesis and Reactions of Macromolecular Compounds. — The Properties of the Individual Macromolecule. — States of Macromolecular Aggregation.

Springer-Verlag
Berlin Heidelberg New York

NMR — Basic Principles and Progress
Grundlagen und Fortschritte
Editors: P. Diehl, E. Fluck, R. Kosfeld

Volume 6

P. Diehl, H. Kellerhals, E. Lustig:
Computer Assistance in the Analysis of High-Resolution NMR Spectra
11 figures. III, 96 pages. 1972. Cloth DM 48,—; US \$19.70
ISBN 3-540-05532-0

Volume 7

56 figures. V, 153 pages. 1972. Cloth DM 78,—; US \$32.00
ISBN 3-540-05687-4

Volume 8

C. Richard, P. Granger:
Chemically Induced Dynamic Nuclear and Electron Polarizations —
CIDNP and CIDEP
26 figures. II, 127 pages. 1974. Cloth DM 58,—; US \$23.80
