- Ablowitz & Segur, 10, 13
- Airy's theory, 196
- Andaman Sea, 6, 11, 19
- ANEOS, 249
- asymptotic methods, 64

- backward wave front, 267
- Bandeh Aceh, 22, 26
- bathymetry, 95, 97, 109, 261
- Bay of Bengal, 6, 11, 19
- Benjamin-Bona-Mahoney (BBM) equation, 45
- Benjamin-Feir instability, 111, 112, 122, 124
- Bessel equation, 210
- Bessel function, 199, 210, 211
- Bessel functions, 28
- bore, 95, 96, 106, 109
- bottom pressure, 85, 90
- Boussinesq, 49, 207, 218, 219, 221, 224–229, 231
- Boussinesq equation, 9, 45
- Boussinesq equations, 64

- Camassa-Holm equation, 9, 45
- caustic, 228
- Chapman, C, 24
- Chennai, 267, 268
- Chilean earthquake, 13
- Clawpack, 22
- cnoidal wave, 50, 54
- Collapse wave, 254
- Constitutive equations, 249
- Contact and compression stage, 241

- Davey-Stewartson equation, 45
- Deep-water impact, 254
- deformation zone, 283, 286, 290, 291, 295, 300, 301
- diffraction, 217, 228
- dip-slip fault, 69, 70
- dislocation theory, 65, 66, 68, 69
- dispersion, 4
- dispersion relation, 201, 209, 225, 233
- dispersive effects, 207, 208, 231
- dissipation, 133–137, 155, 164, 170
- draw-down, 212, 220, 224
- Dromion, 47

- earthquake, 13, 20, 21, 63
- edge wave, 201, 208, 227, 231
- elasticity theory, 65
- energy, 214, 227, 234
- energy flux, 234
- Equation of state, 248
- equation(s)
 - Korteweg–de Vries, 40
- equations of water waves, 8
- Eulerian and Lagrangean notation, 247
- Excavation stage, 243

- fault, 283, 285–289, 291, 295, 298, 301, 302, 304
- fault of an earthquake, 20, 21
- Fermi-Pasta-Ulam recurrence, 112, 128
- finite difference, 219
- fission, 60
- flow separation, 114, 117
- Fourier transform, 202

- frequency dispersion, 64
 frequency downshifting, 112, 128
 Geometric optics limit, 264
 group velocity, 234
 Hammack & Segur, 13–17
 Hammack, J, 13, 14
 hodograph transformation, 173–175, 177
 Huangzhou bore, 215
 Hugli river, 95
 Hugoniot equations, 238, 241
 Hydrocodes, 251
 Impact cratering, 240
 incompressible Euler equations, 63
 India, 7, 11–13, 18
 Indian Ocean, 3
 Indian Ocean earthquake, 31
 Indian Ocean tsunami, 207, 216, 229
 inhomogeneous KdV, 96, 100, 105
 integral transform methods, 64
 internal wave, 50, 60, 61
 Iribarren number, 213
 Jacobian, 190
 Jeffreys' theory, 114, 119, 121
 Kadomtsev-Petviashvili equation, 9
 Kadomtsev-Petviashvili (KP) equation, 45
 KdV, 100, 102
 KdV equation, 9, 12–14, 16, 18, 19, 40
 kinetic equation, 133–135, 137, 154, 170
 Korteweg–de Vries equation
 a physical system, 34
 cnoidal wave solution, 41
 harmonic wave solution, 41
 one-soliton solution, 41
 Korteweg-de Vries, 49–51, 53, 56, 59, 60
 Korteweg-de Vries equation, 9, 64
 KP equation, 9, 12
 Lagrangian, 189
 Laguerre function, 201
 Lakshmanan, M, 13
 landslide, 208, 224, 225, 227, 231
 Laplace equation, 8
 line soliton, 46
 long wave assumption, 191
 long wave speed, 4, 11, 22
 long waves, 8, 10, 24
 Lump soliton, 47
 mangroves, 26
 mass, 52, 56, 59
 Modification stage, 244
 modulational instability, 112, 122, 124, 126, 127, 130
 momentum, 56, 59
 Navier-Stokes equations, 247
 near shore, 24, 29
 nonlinear, 133–135, 141, 144
 Nonlinear Schrödinger (NLS) equation, 45
 nonlinear shallow-water theory, 173, 174, 178, 275
 ocean depth, 4, 7
 oscillatory tail, 13, 16
 Paradip, 267, 268
 peakon, 46
 Port Blair, 268, 269
 potential flow, 63
 prediction, 285, 304
 quadruple, 287, 292, 294, 295
 quartet resonance, 124
 ray equations, 261
 Rayleigh, 49
 Rayleigh distribution, 113
 reflection, 208, 213, 226, 227, 230
 refraction, 208, 217, 225, 227–231, 233, 234
 Riemann invariant, 211
 Rim wave, 254
 rogue wave, 111–113, 115, 122
 run-up, 207–209, 211–227, 229, 231, 233
 runup, 173–179, 181–187
 Russell, 49
 Satake, 5–7
 seafloor deformation, 63, 72, 76
 Seine river, 95
 shallow water, 3, 8, 64
 shallow water equations, 25
 shallow water wave, 189

- shallow-water equations, 207–209, 211, 219, 222
- Shallow-water impact, 254
- shelf, 59, 60
- sheltering coefficient, 115
- shoaling, 209, 219
- shoaling law, 209
- Shock waves, 236, 238
- sidebands, 127, 128
- significant wave height, 113
- slowly-varying, 54, 57, 59
- small amplitude waves, 4, 10, 24
- Snel's law, 233
- solitary wave, 41, 49, 50, 57–60, 214
- soliton, 40, 49, 61, 174
- solitons, 13, 14
- sound waves, 4
- source area, 203
- spatio-temporal focusing, 112, 115, 122, 130
- spectral, 135, 137, 138, 140, 155, 156, 163
- Sri Lanka, 7, 12, 13, 18
- standing wave, 210
- Stokes wave, 127, 143, 164, 197
- Stokes waves, 125
- Stokes' equations of water waves, 8
- strike-slip, 283–286, 294, 295, 303
- strike-slip fault, 67, 69, 70
- subduction, 283–285, 287, 289, 292, 293, 298, 300–302, 304
- surf similarity parameter, 207, 213, 214, 224, 229, 231
- tectonic plate, 283, 287, 295
- tectonic plates, 13, 20, 21
- Thailand, 7, 11, 13
- tidal bore, 208, 215
- tidal wave, 95, 215
- Tillotson EOS, 249
- trapped wave, 208, 227, 231
- tsunami, 3, 4, 19, 20, 31, 95, 97, 102, 109, 173–176, 178, 182, 186, 207–209, 211–221, 223–225, 227, 229, 231, 233, 261, 271–278
- tsunami scales, 5
- tsunami, source, 20
- turbulence, 133
- uplift, 63
- variable coefficient, 50, 51, 53, 56
- Vishakapatnam, 267, 268
- Ward, 5
- water wave, 49–51, 57, 61
- water waves equations, 8
- water-wave equations, 64
- wave action, 50
- wave breaking, 208, 212–214, 216, 224
- wave dispersion, 4
- wave equation, 10, 19, 22–24
- wave orthogonal, 227, 228, 233, 234
- wave volume, 16, 17, 19, 23
- wave-prediction, 134, 135
- weak turbulence, 133–135, 140, 142, 165
- wind wave, 214
