# Subject Index

## A

acromegaly 26, 32, 124  
acro-osteolysis 138  
alkalosis 120  
alkaptonuria 26  
amyloidosis 116  
aneurysm 34  
aneurysmal bone cyst 158  
ankylosis 89  
arterial calcification 34  
arthralgia 112  
arthritis 100, 112  
– gouty 66  
arthrogryposis multiplex congenita 30  
atheroma 34

## B

BMD *see* bone mineral density  
bone  
– island 148  
– mineral density (BMD) 52  
– resorption 62  
– tumor, in children 48  
Bouchard's nodes 72, 86  
boutonnière/button-hole deformity 106  
brown tumor 150

## C

calcification of the arteries 34  
calcific pseudogout 31  
calcified medullary defect 148  
calcium  
– deficiency 134  
– deposition 100, 118  
– pyrophosphate dihydrate deposition disease (CPPD) 26, 100, 118, 158  
candle wax dripping 144  
cardiac failure 32  
carpal bone, hand of normal teenager 14  
carpal fusion 16  
carpal tunnel projection 10  
carpal tunnel syndrome 116  
cartilaginous tumor 28  
chondroblastoma 158  
chondrocalcinosis 26, 100, 118  
chondroma, extraskeletal 28, 38  
chondrosarcoma 38, 54, 140  
chronic renal failure 116  
claw hand 30  
clinodactyly 18  
Codman's triangle 56  
compact island 148  
contrast 6

cooley anemia 136  
cortical bone sclerosis 50

**D**

dactylitis 146  
degenerative joint disease 72 *see also* osteoarthritis  
delta phalanx 18  
diabetes mellitus 34  
distal radioulnar joint (DRUJ) 10  
dose 6  
Down syndrome 18  
Dupuytren's contracture 30  
dyschondroplasia 140

**E**

eburnation 72, 86  
enchondroma 46, 152  
– in children 156  
– periosteal 54  
– with calcification 154  
enchondromatosis 140  
endosteal bone sclerosis 50  
enostosis 148  
enthesopathy 96  
epidermoid bone cyst 46  
erosive osteoarthritis 80  
estrogen deficiency 52  
exostosis 48  
extraskeletal chondroma 28, 38

**F**

fibroid stroma 160  
film-screen system 7  
focal sclerosis 148

**G**

geode 142, 158  
giant cell tumor 158, 160  
gland hyperplasia 124  
gout 26, 40, 46, 66  
growth hormone 124

growth plate, abnormal shape 18

**H**

Hajdu–Cheney syndrome 138  
hardener-free developer 6  
Heberden's nodes 72, 86  
hemangioma 162  
hemochromatosis 26, 118  
hemodialysis 31, 116  
hemoglobinopathy 136  
hereditary leptocytosis 136  
hip fracture 52  
hyaline cartilage 26  
hypercalcemia 31, 120  
hyperostosis 144  
hyperparathyroidism 26, 34, 60, 62, 118, 130, 150  
hyperuricemia 66  
hypomagnesemia 118  
hypophosphatasia 118  
hypophosphatemia 26  
hypothyroidism 118

**I**

industrial radiograph 2

**J**

Jaccoud's arthropathy 112  
JCA *see* juvenile chronic arthritis  
joint  
– ankylosis 110  
– contracture 30  
juvenile chronic arthritis (JCA) 68  
juxta-articular osteopenia 104

**K**

Kienböck's disease 94

**L**

loose body 84  
loss of articular cartilage 77  
lupus pernio 146

**M**

macrophage  
 – proliferation 102  
 Maffucci's syndrome 152  
 mammography 2, 3  
 – EV150 screen 7  
 – Kodak 7  
 mediterranean anemia 136  
 medulloblastoma 164  
 melorheostosis 144  
 metacarpal bone, hand of normal teenager 14  
 metacarpal index (MCI) 52  
 metastases to bone 164  
 metastatic calcification 31  
 modulation transfer function (MTF) 3, 7  
 Mönckeberg's medial calcific sclerosis 34  
 monosodium urate monohydrate deposition 40  
 monostotic disease 166  
 multicentric reticulohistiocytosis 70  
 multiple enchondromata 140  
 myalgia 112  
 myeloproliferative disorder 40  
 myxedema 32

**N**

necrotic pseudocyst 142, 158

**O**

obesity 32  
 Ollier's disease 140, 152  
 oncology 2  
 original equipment manufacturer (OEM) 2  
 orthopedics 3  
 osseous trauma 48  
 osteitis deformans 166  
 osteoarthritis 72, 118  
 – early 77  
 – erosive 80  
 – loose body 84  
 – of the base of the thumb 92  
 – primary form 86

– severe 89  
 – ulnar styloid 94  
 osteoarthritis 50  
 osteochondroma 48  
 osteoclastoma 150, 160  
 osteodystrophy 60  
 – renal 62, 130  
 osteoid osteoma 50  
 osteolysis 166  
 osteomalacia 62, 130, 134  
 osteomyelitis 46  
 osteopenia 52, 106, 126  
 osteophytes 72, 92  
 osteophytosis 80  
 osteoporosis 50, 52, 62, 126  
 osteosarcoma 56, 140  
 osteosclerosis 62, 130  
 osteosclerotic metastases 164

**P**

Paget's disease 166  
 parathyroid  
 – hormone 62  
 – hyperplasia 130  
 Parkinson's disease 30  
 periosteal  
 – enchondroma 54  
 – lesion 56  
 periostitis ossificans 56  
 peripheral arthritis 66  
 phosphate metabolism 134  
 phosphor crystal 3  
 podagra 66  
 polyarthritis 70  
 polymyositis 31  
 processing condition  
 – automatic 4  
 – manual 4  
 pseudoclubbing 138  
 pseudocyst 146  
 pseudogout 100, 118

pseudoperiostitis 60  
 psoriasis 96  
 psoriatic arthritis (PA) 80, 96  
 punched-out lesion 66  
 pyrophosphate arthropathy 100

**R**

radiographic/radiography  
 – child's hand and wrist 12  
 – film 3  
 – hand of normal teenager 14  
 – image 3  
 – standard projection of the hand 10  
 radiology, historical development 2  
 Reiter syndrome 96  
 renal  
 – disease 40  
 – failure 32  
 – glomerular disease 130  
 – osteodystrophy 31, 60, 62, 116, 120, 130  
 reticulohistiocytosis, multicentric 70  
 rheumatoid arthritis 16, 68, 80, 96, 102, 158  
 – early signs 104  
 – moderate form 106  
 – severe form 110  
 rickets 134

**S**

sarcoidosis 146  
 scaphoid fracture 10  
 scaphotrapeziotrapezoid fusion 16  
 scleroderma 31, 42  
 sclerosis 166  
 sensitometric curve 4  
 sesamoid bone 20  
 – hand of normal teenager 14  
 skin lesion 70  
 SLE *see* systemic lupus erythematosus  
 small bone structure 8  
 soft tissue  
 – atrophy 42

– calcification 120  
 – edema 32  
 subarticular pseudocyst 142, 158  
 subchondral  
 – cyst 142, 158  
 – sclerosis 80  
 subperiosteal resorption 60  
 swan-neck deformity 106  
 synovial inflammation 142  
 synoviocyte proliferation 102  
 synovitis 112  
 systemic lupus erythematosus (SLE) 112

**T**

tenosynovitis 102  
 thalassemia major 136  
 toe contrast 7  
 – value 6  
 tophaceous deposit 40  
 trabecular coarsening 126  
 trauma  
 – hand 10  
 – wrist 10  
 tumoral calcinosis 120

**U**

ulnar styloid ossicle 22  
 uric acid  
 – crystal deposition 40  
 – overproduction and underexcretion 66

**V**

vascular calcification 120  
 vertebral fracture 52  
 vitamin D  
 – intoxication 34  
 – metabolism 134  
 Volkmann's ischemic contracture 30

**W**

Werner's syndrome 34  
Wilson's disease 26  
wrist, ulnar styloid process  
– 22

**X**

X-OMAT industrial film 4, 5, 6

**Z**

z-shaped deformity 106
