

About the Editors

Dr. Susheel Kalia is Assistant Professor in the Department of Chemistry, Bahra University, Solan (H.P.), India. After completing his Ph.D. at Punjab Technical University, Jalandhar, India, he began working as Assistant Professor in Singhania University (Rajasthan), Shoolini University (Solan) and Bahra University (Shimla Hills) where he has been for the past 5 years. Kalia has around 40 research papers in international journals along with 80 publications in national and international conferences and seven book chapters. Kalia's other editorial activities

include work as a reviewer and member of editorial board for various International Journals. Additionally, he has edited a number of books such as *Handbook of Biopolymers and Their Application*—Wiley-Scrivener Publishing and *Cellulose Fibers: Bio- and Nano-Polymer Composites*—Springer, Heidelberg. He is also a member of a number of professional organizations, including the Asian Polymer Association, Indian Cryogenics Council, the Society for Polymer Science, Indian Society of Analytical Scientists, and the International Association of Advanced Materials. Presently, Kalia's research is in the field of biocomposites, nanocomposites, conducting polymers, cellulose nanofibers, inorganic nanoparticles, hybrid materials, hydrogels, and cryogenics.

Dr. Shao-Yun Fu joined his current position as a full professor at the Technical Institute of Physics and Chemistry, Chinese Academy of Sciences (CAS) in 2002. He was awarded his Ph.D. by CAS in 1993 and since then has held positions as a Humboldt Fellow at Leibnitz Institute of Polymer Research, Dresden and visiting scholar at the Center for Advanced Materials, Nanyang Technical University (Singapore), University of Sydney (Australia), and University of California at Riverside (USA). He has also worked as Senior Research Fellow at City University of Hong Kong. Since June 2012, Fu is a visiting professor at Tohoku University, Shinshu University, Chiba University of Japan, and the Technical University of Kaiserslautern, Germany. Fu has published over 170 articles in journals, one monograph entitled *Science and Engineering of Short Fibre Reinforced Polymer Composites* together with Prof. Yiu-Wing Mai (University of Sydney) and Dr. Bernd Lauke (Dresden, Germany) published by Woodhead, Cambridge, UK. He has also contributed three chapters in English books and three chapters in Chinese books.
