# Texts and Monographs in Physics

Edited by **W. Beiglböck, M. Goldhaber, E. Lieb, and W. Thirring**

**Texts and Monographs in Physics** includes books from any field of physics that might be used as basic texts for advanced training and higher education in physics, especially for lectures and seminars at the graduate level.

---

## **Polarized Electrons**

by **J. Kessler**

1976. ix, 223p. 104 illus. cloth

## **The Theory of Photons and Electrons**

The Relativistic Quantum Field Theory of  
Charged Particles with Spin One-Half

Second Expanded Edition

By **J. Jauch** and **F. Rohrlich**

1976. xix, 553p. 55 illus. cloth

## **Essential Relativity**

Special, General, and Cosmological  
Revised Second Edition

By **W. Rindler**

1980. xvii, 284p. 44 illus. paper

## **Inverse Problems in Quantum Scattering Theory**

By **K. Chadan** and **P. Sabatier**

1977. xxii, 344p. 23 illus. cloth

## **Quantum Mechanics**

By **A. Böhm**

1979. xvii, 521p. 105 illus. cloth

## **Relativistic Particle Physics**

By **H. Pilkuhn**

1979. xii, 427p. 89 illus. cloth

## **The Concepts and Logic of Classical Thermodynamics as a Theory of Heat Engines**

Rigourously Constructed upon the Foundation

Laid by S. Carnot and F. Reech

By **C. Truesdell** and **S. Bharatha**

1977. xxii, 154p. 15 illus. cloth

## **Principles of Advanced Mathematical Physics**

By **R.D. Richtmyer**

### **Volume I**

1978. xv, 400p. 45 illus. cloth

### **Volume II**

1981. xi, 322 p. 60 illus. cloth

## **Foundations of Theoretical Mechanics**

By **R.M. Santilli**

**Part I:** The Inverse Problem in Newtonian  
Mechanics

1978. 288p. cloth

**Part II:** Generalizations of the Inverse Problem  
in Newtonian Mechanics

In preparation

## **Advanced Quantum Theory and Its**

### **Applications Through Feynman Diagrams**

By **M.D. Scadron**

1979. xiv, 386p. 78 illus. cloth

## **Operator Algebras and Quantum Statistical Mechanics**

By **O. Bratteli** and **D.W. Robinson**

**Vol I:**  $C^*$  and  $W^*$  Algebras. Symmetry Groups.  
Decomposition of States

1979. 500p. cloth.

**Vol. II:** Equilibrium States. Models in Quantum  
Statistical Mechanics

1981. 517p. approx. cloth

## **The Nuclear Many-Body Problem**

By **P. Ring** and **P. Schuck**

1980. 716p. approx. 171 illus. cloth

## **Nuclear Reactions with Heavy Ions**

By **R. Bass**

1980. 410p. 176 illus. 31 tables. cloth
