 Semiautomatic thermal mapping system 84
 Skin flaps 54
 Skin grafts 36
 Thoracotomy 124
 Wide excision 97
 Wound healing 53
 Synovial sarcomas 19, 110 ff, 118, 125, 131
- Tendosynovial sarcomas 110
 Thermal chemosensitization 81
 Thermosensitizers 81
 Three-dimensional treatment planning 78
 TNF 103, 161 ff
 TNM classification 14

Tru-Cut core biopsy 25 ff

Tumor surveillance 9

Uterine Leiomyoma 21

Well-differentiated liposarcoma 91

Xenotransplanted tumors 95

Springer-Verlag and the Environment

We at Springer-Verlag firmly believe that an international science publisher has a special obligation to the environment, and our corporate policies consistently reflect this conviction.

We also expect our business partners – paper mills, printers, packaging manufacturers, etc. – to commit themselves to using environmentally friendly materials and production processes.

The paper in this book is made from low- or no-chlorine pulp and is acid free, in conformance with international standards for paper permanency.
