

Index

A

American white-tailed deer, 103
Antigen, 173–176, 178, 179
Arabian Peninsula and the Middle East,
The, 87
Arasu/87, 184, 186, 191

B

Baculovirus
Bombyx mori nuclear polyhedrosis virus,
178
polyhedrin, 178
Baculovirus expression system, 146
Blocking-ELISA, 141
Breed, 40, 45, 47

C

Canine adenovirus, 175
Canine distemper virus, 172
Carrier status, 229, 233
Clinical manifestations
acute, 53
clinical score sheets, 56
clinical scoring, 55
goats, 53
Clinical manifestation of PPR, 52
acute, 52, 53
per-acute, 52
subacute, 53
Clinical signs
American white-tailed deer, 105
dromedary camels, 104
incubation period, 104
Indian water buffaloes, 104, 106
wild ungulates, 104, 2

Coimbatore/97, 184, 186
Combined vaccine, 189, 190
Competitive-ELISA, 141
Control, 134
Convalescent, 3
Cross-protection, 137
Crude lysate, 146
Cut-off, 145

D

Diagnosis
competitive ELISA, 239, 240
immunocapture ELISA, 237
LAMP, 239
real time PCR (RT-PCR), 233, 235,
237–241, 245, 249, 250
Differential diagnosis, 134
Distribution of PPRV across Africa
Central Africa, 76, 81
East Africa, 78
North Africa, 76, 82, 88
West Africa, 71, 76
Distribution of PPRV across Asia and the
Middle East
Far East, the, 86
India, 72, 79, 84–86
Near East, the, 85
Pakistan, 83, 85, 86
Distribution of PPRV across the European
Union, 82
DIVA, 5, 148

E

E. coli expression system, 147
Editing, 17

- ELISA, 4, 139
 Epidemiology of PPRV, 71, 75, 76, 79, 82
 Epitheliotropism, 108
 Epitope-based ELISA, 148
 Epizootiology, 3
 Eradication, 227–230, 235–237, 240, 241, 243, 244, 246–250
 Eradication programme, 112
- F**
 F gene
 start codon, 14
 Fusion Protein, 23
- G**
 Genome, 2, 155, 156, 159, 160, 164, 165, 167
 Genome length, 13
 Genome organization, 13
 Genotype
 protectotype, 235, 236
 serotype, 234–236
 Gross pathology
 buccal cavity, 57
 digestive tract, 57
 lymphoid structures, 58
 Peyer's patches, 58
 pulmonary congestion, 58, 57
- H**
 Haemagglutinin Protein, 24
 Histopathologic, 124
 Histopathology
 dromedary camels, 107
 epithelial, 58
 necrosis, 58
 syncytial, 58
 wild ungulates, 107, 58
 Historical perspectives, 78
 Humoral response, 135
 Hybridization, 155, 158, 159, 161
- I**
 Immune responses
 antibodies, 176
 cell-mediated, 173–175, 177–179
 delayed-type hypersensitivity, 179
 humoral, 171–173, 176, 179
 immunosuppression, 172, 178, 179
 neutralizing antibody, 174
 Immune system
 adaptive, 171
 B cell, 173, 179
 immunization, 175, 178
 innate, 171
 lymphocytes, 177, 179
 lymphoid tissues, 178
 T cell, 176, 177, 179
 Immunity, 5
 Immunodominant, 138
 Immunofluorescence, 144
 Immunosuppression, 3
 In apparent, 42
 Incidence, 227, 228, 244, 245, 249
 Inclusion bodies, 108
 Intergenic sequence, 13
 Introduction, 51
- L**
 Large ruminants
 African buffaloes, 99
 Asian water buffaloes, 98
 cattle, 98
 L Protein, 20
 Lymphotropism, 108
- M**
 Mapping, 138
 Matrix protein, 22
 Measles virus, 172, 173
 Molecular biology, 1
 Morbillivirus, 95
 Morbilliviruses
 fusion (F) protein, 172
 hemagglutinin (H) protein, 172
 hemagglutinin-neuraminidase (HN)
 protein, 176
 nucleocapsid (N) protein, 172
- N**
 Necropsy findings, 122
 Neutralizing antibody, 137
 Nigeria/75, 184, 188, 190
 Non-lethal infections, 42
 Nucleocapsid protein, 18
- P**
 Pathology
 American white-tailed deer, 107
 dorcas gazelles, 106
 dromedary camels, 106

laristan sheep, 107
 sindh ibex, 105, 107
 PCR, 4, 155, 157, 159, 160, 162–165, 167
 Peptide
 epitope, 175, 178
 Peste des petits ruminants
 hemagglutinin-neur aminidase (HN)
 protein, 172, 175, 133
 Phocine distemper virus, 172
 Phosphoprotein, 19
 Phylogenetic relationship, 97
 Phylogenetic tree, 11
 Pigs, 99
 PPR, 156–160, 164, 167, 168
 PPR eradication, 113
 PPR global control, 150
 PPRV infection, 41
 Prescribed test, 139
 Prevalence, 228
 Promoter structure, 14
 Pseudomembraneous and erosive stomatitis,
 122

R

Receptors, 39, 40
 Recombinant antigen, 143
 Reporting systems
 HandiStatus II, 75
 WAHID, 71, 75, 83, 88
 Reverse genetics, 149
 Rinderpest, 97, 109, 227, 229, 230, 233, 235,
 237, 244, 245, 248, 250
 Rinderpest virus, 172
 Risk analysis, 249
 RNA genome
 non-structural proteins, 96
 structural proteins, 96
 RNA transcription, 16
 Rule of six, 13
 Ruminants
 cattle, 174
 goat, 171
 sheep, 171

S

Secondary infections, 127
 Sensitivity, 143
 Single-humped camels, 99
 Small ruminants
 goats and sheep, 98
 Species, 41, 44–47
 Specificity, 143

Standardized, 149
 Structural proteins, 136
 Subclinical, 42–44
 Sungri/96, 184, 186, 188, 190
 Surveillance
 disease surveillance, 244, 245
 sero surveillance, 112, 230, 239, 241, 244,
 245, 248–250
 Syncytial cells, 119, 124, 125

T

TCRP, 184, 186, 188
 Thermostable, 136, 188, 190, 236, 241, 243,
 227, 230, 236, 240–243, 245, 247, 248,
 250, 251
 Transgenic, 175

V

Vaccination strategy
 DIVA, 235, 241–248
 Vaccination, 4
 Vaccine
 mucosal, 175, 179
 new generation, 241–243
 quality assurance 241
 subunit, 175
 Vertical transmission, 120, 128
 Virus spread, 234
 V protein, 25
 interferon action, 26
 interferon induction, 27

W

Wildlife, 2, 41, 43, 47, 233, 234, 236, 244,
 245, 249, 250
 American white-tailed deer, 43
 Barbari, 45
 Barbari-Black Bengal, 45
 bharals, 43, 46
 British breed, 45
 buffalo, 40, 41, 43–46
 camel, 39, 41, 43–46
 cattle, 40, 41, 43–46
 CD150, 40
 deer, 43
 Djallonke, 45
 dorcas gazelle, 43, 46
 gazelle, 43, 46
 gemsbok, 43
 goat, 39–47
 Guinean breeds, 45

Kanni, 45
Kindi, 45
Laristan sheep, 43, 46
lion, 43, 46
Logoon, 45
Nectin-4, 40
Nilgai, 43
Nubian ibex, 43, 46
Salem black breed, 45
sheep, 39–42, 45–47

SLAM, 40
species, 43, 45
subclinical, 45
Sudanese breeds, 45
Tellicherry breed, 45
WAD, 45
WALL breed, 45
West African dwarf, 45
wild bharal, 43
Wild ungulates, 99
